WILL SEES HOOVER BUSY IN GREETING COMMISSIONERS

(Special To The News)
SANTA MONICA, Cal., July 5.—While everybody is off on some sort of vacation today, Mr. Hoover, our hardest worked man, is at the White House ap-
pointing commissions. He is going to have to appoint a commission to keep track of the commissions that he has appointed. It just looks like there won't be enough good ones.

He is going to quit shaking hands for the summer with all the rubbernecks, a move which everybody will applaud. He figures if he can just shake hands with all his commissions that he will have his right hand full all summer.

Yours,
WILL ROGERS.

He is going to quit shaking hands for the summer with all the rubbernecks, a move which everybody will applaud. He figures if he can just shake hands with all his commissions that he will have his right hand full all summer.

PA NEW OBSERVES

Sentiment is unanimous behind the agitation that has been started here in an effort to have the railroad companies erect stations or a union station in keeping with present day progress of New Castle. This city, in recent years, has become one of the leading convention cities of the state, because of the modern facilities afforded. But think what the ideas in the mind of a stranger must be, to attend a convention in The Cathedral, or The Castleton, and then enter and leave New Castle by way of one of the numerous out of date railway stations. There is no question but that the railroad companies have a duty to perform in bringing their gateways to this city up to the standard of other modern buildings and facilities.

One may never have thought of it in just this light, but there was probably a million dollars in autos standing around Cascadia Park yesterday. Taking the average value of an auto at \$1,000, there would only have to be 1,000 cars standing around to represent a million dollars. Think how many millions were represented by the endless line of cars that went through the city yesterday.

Hospital and coroner reports this morning at least would indicate that the fireworkless Fourth in New Castle was a big improvement over the celebration of previous years.

Next week, Uncle Sam will turn loose his new money in this city, as well as elsewhere throughout the country. There will be both new and old currency in use for a long time before the transfer has been made so that all of the new type of currency is in use.

PA News is of the opinion that the Harmony track crossings of the New Castle-Ellwood road should be better guarded. If our memory is not faulty, there is no indication of any kind of grade crossings where these tracks cross the highway, that would warn a motorist at night.

What is commonly known as "boot-legging" fireworks sales was quite common in this vicinity this Fourth. Stands for sale of fireworks were set up just outside the city limits in an effort to sell fireworks to residents of New Castle, where sales were prohibited. The same conditions (Continued On Page Two)

Traffic Mishaps Quite Numerous During Holiday

Ten Or Dozen Persons Hurt,
Several Are Taken To
Hospitals

ONE FATALITY
WITHIN COUNTY

Dense Traffic On City Streets
And County Highways
Over Holiday

In addition to the auto accident at Wampum, in which one person was killed and two injured on the Fourth, the city and state police received reports of 10 or a dozen traffic accidents on city and county highways, in which persons were injured, and many more in which damage to cars resulted and no one was seriously hurt.

Included in the accidents which were reported over the holiday period are the following:

Woman Hurt
Mrs. Emma Gold of 338 East Lutton street, is in the New Castle hospital, suffering from a broken arm and leg and minor injuries, as a result of being struck by the car of H. H. Houston of Mercer, Pa., while being driven by his son, F. S. Houston of Punxsutawney on East Washington street at East Lutton street. Mrs. Gold was walking from the west to the east side of Washington street when the accident occurred. She was removed to her home by Mr. Houston, and was later removed to the hospital, when the full extent of her injuries were realized.

Struck By Auto
Charles Anderson of 2308 Highland avenue, was severely injured on the head this morning, when as he was getting off a Highland avenue street car at Edgewood avenue, he was struck by the automobile John E. E. of Pulaski, Pa., which was running along side the street car. Mr. E. stated that he did not see the intersection ahead because it was raining and was running along side the street car, which stopped suddenly and unexpectedly. He took Mr. Anderson to the New Castle hospital, where eight stitches were taken in his head in two bad cuts.

Woman In Hospital
Mrs. E. A. McElver of 110 Euclid avenue, is in the Shenango Valley hospital, suffering from a cut on the forehead and injuries of the right side, chest and ribs, as a result of the automobile of Miss Yolanda E. Small of McKeesport, in which she was riding Wednesday, being struck by the (Continued On Page Fourteen)

Accident Occurs Near Wam-
pum On Thursday
Morning

TWO OTHERS HURT
IN SAME MISHAP

One man was instantly killed and two others injured Thursday morning, July 4th about 8:00 o'clock, when the car of Bastiste Sapenico of Koppel, upset just east of Crescendale. The dead and injured are:

Dead
Tom Haines, 42, Koppel, colored. Killed instantly when the over-turning car crushed his skull.

Injured
Bastiste Sapenico, 40, Koppel. Color bone broken and left ankle injury. Sapenico is a Spaniard. Taken to Shenango Valley Hospital.
John Buckner, 28, colored. Bruised about legs, not seriously. Taken to Shenango Valley Hospital.

Cause Unknown
Just what caused the accident is not known. Sapenico was driving the car and in some way it overturned. It is said that this was the fourth accident he has had in two weeks with the car, a previous accident having tipped the top of the car. It is possible that some damage to the car may have weakened it.

Hearing the crash, men who lived nearby rushed to the scene and lifted the car from the unfortunate man. Haines was found to be dead. An ambulance took the other two men to the hospital.
Both Sapenico and Buckner were released from the hospital on Thursday afternoon.
County Coroner J. P. Caldwell stated this morning that an inquest would be held to investigate facts in connection with the accident.

Secretary Mellon Believed Ready To Quit Cabinet Post

Washington Buzzes With Rumors That Secretary Mellon Is Not Satisfied

Believe Some Friction Exists
Between Mellon And
White House

(International News Service)
WASHINGTON, July 5.—There was a growing belief in the capital today that Secretary of the Treasury Mellon may not remain long in President Hoover's cabinet.

Consistently rumors have been circulated of the impending resignation of Mellon, and just as consistently they have been denied.

However, to some political observers it was apparent that Mellon does not occupy the same relative position of power in the Hoover administration as in those of Harding and Coolidge.

Several instances which would indicate that the president has followed other advisors than his secretary of the treasury, have developed since the new administration took office and have given rise to the feeling that Mellon was not pleased with his position in the present regime.

Publicity Issue.
Among the first decided changes in treasury policy with the advent of the Hoover administration was publicity for income and corporation tax refunds. While it had been maintained that Mellon acted on his own (Continued On Page Two)

Glenshaw Near Pittsburgh
Dies In Hospital

(International News Service)
PITTSBURGH, July 5.—R. L. Rankin of Kane, Pa., a student at Carnegie Institute of Technology, was fatally injured here today when the motor cycle in which he was riding overturned on the Butler plank road near Glenshaw. Three other occupants of the car who suffered bruises, told police their car was sideswiped by another machine that did not stop after the accident.

Rankin died shortly after being taken to the West Penn hospital. John W. Moore, 25, of Suislaw, driver of the car, posed for his appearance before a coroner's inquest, after taking Rankin to the hospital. Edith Thompson and Dorothy Harris, the other two passengers were only slightly injured.

Officials Start Probe As To
How Late Famous Flier
Obtained Liquor

(International News Service)
MINNEAPOLIS, N. Y., July 5.—Dr. Alexander O. Gettler, New York City toxicologist, reported to Assistant District Attorney Phillip Huntington today that his examination of the organs of Wilmer Stultz indicated that the famous flier was intoxicated when his plane crashed, killing Stultz and two others near Roosevelt field last Monday.

Huntington, in revealing this information said he is considering starting an investigation to learn who sold Stultz the liquor and whether any official was responsible for permitting him to fly with two passengers under such conditions.

Entitled to Truth
"The public is asked and urged to support aviation," said Huntington. "It is asked to become air-minded. If there is any bad spot, the public is entitled to know the truth and the force of public opinion should have great weight in correcting any such evils."

Dr. Gettler, in his report to the assistant district attorney, said:

"The amount of alcohol in the brain indicates that the deceased was in an intoxicated condition at the time of death."

The brain, the doctor's report stated, showed 0.42 per cent. alcohol. The alcohol was ethyl grain alcohol. A large amount of alcohol was found in the stomach, the report added, "some alcohol" in the blood, and a "large amount of alcohol" in the brain.

Examination of Stultz's vital organs was made upon an order signed by County Judge Lewis J. Smith.

Stultz achieved international fame as the pilot who flew the Atlantic with Miss Amelia Earhart as his passenger.

Don't Believe It
WILLIAMSBURG, Pa., July 5.—"I don't think it's true," declared Mrs. Robert Suckling, sister of Wilmer Stultz, who was killed in an airplane at Minnola, N. Y., last Monday, when informed today of the statement of Dr. Alexander Gettler, New York toxicologist, that examination of the organs of the flier showed traces of intoxication.

"I hardly think it's true," continued Mrs. Suckling. "Wilmer was not a drinking man. He was too careful a pilot to do that. It's not true."

Mrs. Suckling would make no further comment on the statement of Dr. Gettler.

The flier's mother, Mrs. Clara Stultz, and the young widow, Mrs. Mildred Stultz, formerly of Middleburg, (Continued On Page Fourteen)

Over Fourth

Bessemer celebrated July 4th during the year 1929 in a considerable ceremony and several thousand persons attended the all day civic celebration which was sponsored by the town's booster club.

Thursday morning the affair got under way early with a parade at 8:30 o'clock through the town, thence to the field as the rear of the high school building where the festivities of the day took place.

Some 50 cars were in the parade and a large group of citizens took part in the march which was headed by the Bessemer-Alt. Jackson and directed by Joseph Martin.

During the morning hours a ball game took place and Bessemer downed Hillsville 7 to 4 before a large crowd of spectators.

Thousands attend.
The afternoon was one more hectic. Crowds came from points near and far and before evening it was estimated that several thousand people were on the grounds.

Suffer Injuries

NO FATALITIES
ARE REPORTED

(International News Service)
PITTSBURGH, July 5.—It is the first of the country's "quiet" celebrations the Fourth of July, under ordinances governing use of fireworks, Pittsburgh took the lid off a check indicated today.

In Pittsburgh 35 were burned by fireworks, although no lives were lost. Three persons were dead in Western Pennsylvania from accidents not attributable to fireworks. Two persons were shot by revolvers, but not fatally.

Most of the victims were partially burned. The fireworks shooting started here early Wednesday and continued through last night. Margaret Carney, 5, daughter of a city detective, was seriously burned when a sparkler ignited her clothing. Two dead males, John T. Adams, 27, and Alan K. McKee, 27, were injured when they were shot by revolvers in that city.

Frank Shanks, 10, New Kensington, was burned severely when a cracker exploded in his hand. John Bankowski, 10, of New Kensington, suffered injury to his right eye when a cracker exploded.

Others received injuries less serious.

Fourth Quietly Observed Here

No Accidents Are Reported
From Fireworks In City
Proper, Records Show

FOURTH QUIETLY
OBSERVED HERE

New Castle folks observed the nation's birthday quietly for the first time in many years and as a result local devices were used in a respect from their usual task of blinding up wounds and burns, caused by fire-crackers yesterday.

Only a few sporadic noisemaking celebrations were staged in the city and these were done very covertly.

For the most part local citizens lived themselves to the various parks and pleasure resort in the district where they spent the day in peace and quiet.

There also seemed to be an absence of the usual noisemaking devices generally heard on the Fourth.

Quite a number who had no place in particular to go spent the day in home getting a good rest. It was a peaceful day to spend at home.

In spite of the great amount of traffic on the road, there were fewer automobile accidents in the district than the afternoon.

Good weather favored until the only one, a fatality being reported here over the day.

Crash Occurs In New Wilmington

Car Runs Into Porch At Corner Of New Castle Street And Waugh Ave.

Mr. Jack Madison, of Dover, Del., miraculously escaped serious injury after being thrown out through the window of a car when it crashed into a house at the corner of New Castle street and Waugh avenue, in New Wilmington, early Tuesday evening.

A small light-colored car, the driver of which was not known, crashed into the front porch of a house owned by Jack Madison, married, of the fact that the car was a 1928 model, and that the driver was a woman, was not seriously injured. Mrs. Madison was pushed to the ground by the car, and the car rolled over on its side, crushing the car and the porch of the house.

The accident was caused by failure of the driver to see the stop sign at the intersection of Waugh avenue and New Castle street. The car drove into the main highway there, and in an attempt to avoid an approaching car, it swung into the main highway, and the car rolled over on its side, crushing the car and the porch of the house.

Both the front end of the Detroit car and the porch were thoroughly wrecked as a result of the crash, the car driving itself almost half under the porch of the house.

Considerable excitement followed the accident and many people gathered at the corner to see the strange sight of an automobile lying on its side under a porch.

Mr. Madison described his accident as happening because of the inadequacy of the stop sign and its nearness to the corner. Mrs. Madison suffered a severe nervous shock because the car rolled over on its side, and the car was crushed into the porch of the house.

prevalent around most every city in the state where the sale of fireworks had been prohibited. The probable result of this situation will be the demand for a state-wide regulation on the sale of fireworks.

Last night's rain was the third heaviest that has fallen during a 24-hour period this year, statistics of Weather Observer D. P. Johnson at the Water Works reveal. There was a fall of 2.67 inches during the night. Considerable damage was done to crops, and many fields were badly washed in the rural districts, causing serious damage to crops.

The Schuylkill River rose six inches this morning and is still rising. Yesterday's stage showed the river at 42 feet, while this morning it stands at 47 feet. Considerable rain fell in the north of the city, it is evident.

Flower holiday decorations were noted yesterday, then on other points in the past. Very few automobiles were seen yesterday, decked up with flags and the National colors.

State police, highway police and city police were everywhere yesterday on horses, on motorcycles and on foot. The number of these policemen acted as a check on the too exuberant motorists and helped to avoid accidents.

The driver of young Pa New's car received a ticket for the kind that don't win anything for not stopping at the intersection at Slippery Rock. This reminds one that a traffic light is needed at that corner instead of an obscure stop sign.

A small touring car was seen Wednesday evening going down Washington street. That is not unusual but this particular car had a small wagon attached at the rear as a trailer. This was occupied by a young man of about 15 years of age who was apparently enjoying himself as the passenger.

A New Castle man, who spent the day at Harding Park, near Hubbard, O., yesterday, stated that he was much impressed with an incident that occurred at the park. A number of members of a Slovak church from Youngstown were holding a picnic at the park and opened the meeting by singing the first two verses of "America". The words were sung in English and apparently everyone present took part in the song. They sang the second verse just as lustily and correctly.

as the first. All the rest of the meeting was conducted in the native tongue of those present, not a word of English being spoken throughout the entire proceedings.

Last evening's pyrotechnic displays, of which there were several in the city, had nothing on the display staged by Dame Nature, beginning about midnight. Brilliant lightning, accompanied by the roll of thunder, lasted all night long.

Lawrence county farmers were too busy to take a day off yesterday to celebrate. Tons and tons of hay had to be put up, and the farmers were not losing a minute in the task. Everywhere one looked in the rural districts, farmers were either cutting, baling, or hauling in the crop.

For the first time in years, Pa. News failed to awaken early yesterday morning by the crash of cannon crackers. It was indeed a quiet Fourth, and most every New Castle resident got a good night's sleep in preparation for the event.

Despite the great amount of traffic on the road yesterday, accidents were few in the New Castle district. One fatality resulted from this cause near Wampum. Motorists seemed to realize the danger resting on their shoulders and drove carefully.

The various picnic resorts near New Castle were well crowded yesterday, and many a coat of rain was started by those who have been unable to get away for a day's pleasure prior to the Fourth.

Pa. News observed that work is well under way on putting in a new bridge over Slippery Rock Creek, several miles south of Slippery Rock, and that the bridge which is to be replaced by a wider structure. The road will also be straightened and a sharp curve eliminated.

Lots of belated Fourth of July picknicks got a good ducking last night. Starting just before midnight, it rained heavily all night long, and many who had gone out earlier in the day were drenched before they could get home.

Pa. News was led to believe last night that most every person in New Castle with their families and friends included were at Cascade last evening so immense was the crowd. It seemed like that. During the morning and evening the attendance was just as large it is reported. The fireworks were good but just when they had been fired there began and the throng scamped everywhere for shelter. Extra street cars were added to care for the unusual traffic. Automobiles leaving the park the majority of them were taxed to capacity.

The new Ellwood City-New Castle detour opened to allow traffic to pass around the new bridge that is being erected over the tracks of the B. & O. P. at Cascade park was in good condition yesterday. The state opened it at Wednesday afternoon. Last night traffic coupled with the detour road near Pa. New's road would have created a real traffic congestion.

Fireworks were conspicuous by their absence yesterday. While he was in different sections of the city and at different hours Pa. News didn't see any fireworks. Toy cannons were fired by the only type of Fourth enjoyment Pa. News saw, it appears as if public approval was back of council's ban to the very limit.

There is no need for Pa. News to comment on Thursday's traffic. Any person who was driving knows exactly how it was and those who didn't drive couldn't know exactly.

Bessemer was alive with activity throughout the entire day on Thursday. Back of the high school on the athletic field a ferris wheel, merry-go-round, bingo and what not was going on all day. There were ball games, races and fun for every one and several thousands attended. The affair was the work of the recently organized Booster club in the town.

Farmers are getting two holidays or at least some of them are. The Fourth on Thursday and the rain last night so another vacation today. Pa. News observed quite a few farmers out on the fields Thursday working corn despite the legal holiday.

Tuesday will be the big day for the local Y. M. C. A. camp. The entire staff is out working on the grounds and the camp is to be reconsecrated.

More cars were noticed here over the Fourth from other states than those bearing Pennsylvania license plates.

plates. Evidently Pennsylvania went to Ohio and Ohio came over here. Pa. News noticed hosts of plates from Virginia, Ohio, New York, Maryland and a number from more distant states.

Despite the heat, every one seemed to dance over the Fourth. Pa. News passed a couple of the country dancing places in his rambles last night and judging from the cars, there were quite a few at the hooping art. Cascade's door was jammed.

The water attracted a minor number on Thursday. Swimming holes were invaded by some, but a brisk wind and cool weather for the past few days had made the water just a little too cool for pleasantness.

SECRETARY MELLON BELIEVED READY TO QUIT CABINET POST

(Continued From Page One)

initiative, following a stipulation in a deficiency appropriation bill, calling for certain publication of refunds, got the hand of the White House was seen in the shifting policy.

The appointment of Robert Lucas of Louisville as successor to David H. Blair, commissioner of internal revenue, was contrary to the recommendation of Mellon, while some other changes of personnel were said to have been satisfactory at the treasury.

There was a conflict of opinion between the treasury and the White House, or state department, relative to tax reduction and the French war.

As to the latter the treasury had expressed the view that the due-date of the war supplies debt, maturing August 1, would be postponed at the request of French Ambassador Claudel while the latter was informed at the state department that there was no possibility of such action.

As to tax reduction it was definitely stated at the office of Secretary Mellon that there had been no consideration so far of tax reduction at the next Congress. The following day at the White House it was declared definitely that reductions in rates were being discussed, although there might be factors operating against such reduction to the taxpayers.

The president felt called upon to take personal action in Mr. Mellon's department on the question of a proposed campaign for prohibition in the public schools. While there was no indication that Secretary Mellon had any idea of such a drive, nevertheless Mr. Hoover advised that the impression that such a plan was to be carried out should be corrected definitely and immediately.

When the new administration took office it was the supposition that Mellon would remain about a year and that he would then be succeeded by Ouden L. Mills, the under secretary. Other names recently have been mentioned as Mellon's successor should be resign.

Mellon has served under three presidents, Harding, Coolidge and Hoover, a distinction enjoyed by no other man. He entered the cabinet from a long and extremely varied life devoted to banking, manufacturing and other big business and assumed the obligation of reconstruction of the tangled post-war finances.

There was an enormous unmet public debt, billions in war debt owed the United States, oppressive income tax rates, inadequate housing facilities for government offices here and throughout the country, and the job of enforcing prohibition in normal times was unduly facing his administration.

All of these problems have been completed or at least well under way, except prohibition.

City To Purchase 150 Loads Of Dirt

Council today agreed to the suggestion of Councilman Fowler that the city purchase 150 loads of dirt to fill around the wing walls of the Boyles-Rural avenue bridge.

The dirt will be secured from the Lawrence Auto company and bought from Contractor Powell.

Powell also agreed to give to the city dirt to fill in at the approach to the bridge across the Neshaunock river.

John Hugo, great-grandson of Vice President Hugo, recently gave an exhibition of his paintings in London.

land Miller of Buffalo, N. Y., died early Friday morning at 1:25 at the home of his grandmother, Mrs. Mattie Lightner of 413 Wood street after a brief illness of diphtheria.

The little boy came to New Castle last Saturday to visit relatives. He became ill soon after arriving here and his condition gradually became more critical until he passed away this morning.

Besides his parents he leaves four sisters. Private funeral services will be held this afternoon at 4 o'clock. Burial will be made in Greenwood cemetery.

Time Of Funeral.
Funeral services for Thomas Haines will be held Sunday, July 7, at 2 p. m., from the Clinton Baptist church. Interment in Clinton cemetery.

Christopher J. Hanlon.
Christopher J. Hanlon aged 30 years son of Mr. and Mrs. John Hanlon of 719 Cleveland avenue, passed away at his home in Gary, Ind., Wednesday evening, July 3 at 6:30 following a brief illness since last Saturday.

Mr. Hanlon was a former well known resident of this city. He was a member of St. Mary's Council, Knights of Columbus and St. Mary's church.

Besides his parents he leaves his wife who was Miss Margaret Clark of this city and to whom he was united in marriage on April 16, this year, he leaves four sisters Mrs. Joseph Paix of Glassport, Pa., Mrs. Corolla Paix of McKeesport, Pa., Mrs. C. P. Kelly of this city and Miss Rose Hanlon at home and two brothers, Bernard N. Hanlon of this city and Martin Hanlon of Wilkes-Barre, Pa.

The body will be removed to the home of his parents on Cleveland avenue. Funeral services will be held Saturday July 6 at 9 a. m. from St. Mary's church. Burial will be made in St. Mary's cemetery.

NATION ENJOYS SAFE AND SANE FOURTH OF JULY

(Continued From Page One)

York a seven-year-old girl suffered fatal burns while playing with fireworks and a man was killed when a cannon of his own manufacture exploded.

One murder in New York was indirectly attributed to fireworks. One man shot and killed another because a firecracker, lighted by the victim, went off at his feet.

Fatalities Are Low
Not a single death was reported in New England, although 60 persons suffered injury.

Four deaths and approximately 20 injuries were reported in cities and towns throughout the Middle West.

Ten persons were reported hurt in Los Angeles, San Francisco and other Pacific coast cities.

Thirteen deaths by fireworks were reported in widely scattered sections of the country.

The surprisingly low number of fatalities and accidents this year is attributed to regulations governing the use of fireworks which were in effect in many cities.

Other Fourth of July deaths not traceable to fireworks totaled slightly more than 50, international News Service dispatches showed.

Retired Pennsy Freight Agent Dies Wednesday

W. M. Wallace Of Youngstown Was Pioneer Traffic Man Here

W. M. Wallace of Youngstown returned freight agent of the Erie and Ash-tabula division of the Pennsylvania railroad and known here by many died at his late home in that city on Wednesday evening July 3 according to word received at divisional headquarters today. Death occurred from natural causes.

Mr. Wallace a pioneer traffic man in this territory, is survived by his wife and a son, W. W. Wallace of Beaver.

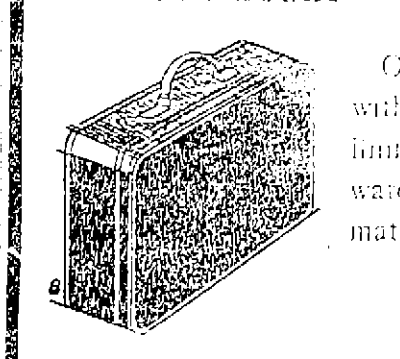

The message here today said that funeral services would be conducted from the Ott's funeral home in Youngstown this afternoon.

Mr. and Mrs. John Bailey, who have lived in their native town of Chertsey, England, for 10 years, will celebrate their 70th wedding anniversary there on September 12.

storm late in the evening. At 7 o'clock there was an open air concert program by the Bessemer-Mt. Jackson band consisting of 60 pieces and the display of fireworks followed. Fireworks however were halted near the close of the display of the storm.

Community Dinner.
Wednesday evening started the celebration proper. The rides and stands were going in full swing early Wednesday night and there was a community dance in the high school auditorium at which several hundred attended.

The affair was sponsored by the Boosters club of the town and every member of the club aided in making the celebration the finest to ever occur in the district.

In charge of the group of workers were C. B. Montgomery, general chairman of the day and president of the Boosters club, Charles S. Wenz, treasurer, Myron Smith secretary, R. C. Wallis, J. A. Johnson, J. D. Schaefer, refreshments, Hiram Lake, sports, O. C. Randall, fireworks, and A. J. Bales, publicity.

FEAR DELAY ON NEW TARIFF BILL

recess until the bill is reported," Smith replied.

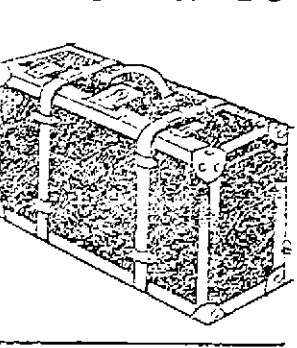

To Enact by November
Administration leaders particularly desired to start Senate debate on the bill August 20 in view of their program to enact it into law by November 1. After the present session was taken they insisted upon the Senate returning August 19, mustering their forces twice to defeat all delay and all anti-increase except those applying to agricultural products sought to lengthen the recess into September. Rumors were current at the time that this delay was desired.

STAR LORE
PERSONAL VALUE OF STAR LORE.
By Arthur DeV. Carpenter
For many years the writer has devoted his entire time to popularizing astronomy both at home and in foreign lands. No better words sum up the importance of the task, than those of Samuel L. Boothroyd, Cornell University's astronomer. Astronomy is perhaps the ideal science to give instruction and inspiration for all who do not contemplate a scientific career. To know one's universe as well as one's world, is to become broadened in spiritual and intellectual vision; and to feel the thrill of vast light-years, huge stellar diameters, endless numbers of possible solar systems, and of millions of galaxies, is to derive a permanent inspiration.

NOE: The writer of Star Lore paragraphs would be pleased to hear from his readers; and will be glad to answer questions that may be mailed in to him.

Throng Out For Fourth Program At E. & A. Field

Band Concert In Mahoning-
town Park Opens Pro-
gram Of Day

SCORES PARTICIPATE IN MORNING RACES

Several hundred persons witnessed the exercises associated with the first and most of the E. & A. field, held Thursday forenoon at the P. 12. It was a field at Mahoningtown.

Band concert, a parade and a complete program of races and athletic contests featured the day.

Program opens. The Pennsylvania railroad band opened the day with an enjoyable program in the seventh ward park on Liberty street at 8:30 a. m. This was followed by a parade to the Pennsylvania field, where extensive arrangements had been made to insure the celebration.

Dances and novelty races came next with various E. & A. employees and officials in charge. L. C. Glenon, divisional athletic director was in general charge while a committee of assistants aided him. W. D. McCloskey directed many of the races as did Thomas Davies. C. M. Wilkes ran the jumping events.

The 100-yard dash marked the opening race for boys 10 to 14 years of age was run first. H. L. Thompson was clerk of the course; Jack Bryan was timekeeper; Ross and Turk were starters and judges included S. E. Parks, Jess Hopkins and T. W. Seimons. P. Seimons assisted the division men in putting the course in shape and directed the sports. A list of the winners of the events follows at the end of the story.

A shoot for men of the division and others interspersed the program of the morning. George W. Schmidt was high scorer for the day, clipping 47 birds out of a possible 50. The wind made it bad for the marksmen but several made fairly good scores. The winner, Schmidt, was given a box of cigars.

Those trailing Schmidt were as follows: L. C. Johns, 40; Clarence Stapp, 40; Dr. J. H. Carpenter, 38; M. T. Stone, 37; Dr. R. C. Gilmore, 37; Clement, 36; G. M. Wilkinson, 36. Others participated.

Wins Award. The E. & A. division has offered a prize of \$10 in gold and the one whose name was on the ninth card drawn was awarded the prize. A. Placco of Mahoningtown was the fortunate person. In fact he felt he was so fortunate that he turned around and gave to the small girl drawing the awards a prize of one dollar himself. Considerable suspense prevailed as the drawing took place.

Prizes for the various events were donated for the occasion by business men of Mahoningtown and the Pennsylvania railroad also furnished numerous ones.

A baseball game in which the E. and A. P. team stood the test against the Slovaks A. C. featured the morning.

Following are the prize winners in the contests conducted:

100-yard dash for boys from 10 to 14 years—first, Andy Compel; second, Charles Cato; 100-yard dash for boys 14 to 16—first, James Compel; second, Tony Adams.

Sack race for boys 10 to 14—first, Tony Tomello; second, John McTaggart.

Three-legged race for boys 10 to 16—first, Albert Panella and Alfred Russo; second, Nick Chazra and Henry Russo.

Shot scramble for boys 10 to 14—first, Sam Carbone; second, Clyde Rainey.

75-yard dash for girls 10 to 14—first, Carrie Russo; second, Angeline Sacco.

High jump for boys 14 to 16—first, Louis Cappaia; second, Dick McIlvann.

Broad jump for boys 14 to 16—first, Lefty Russo; second, Bonnie Russo.

Far ladies' race for 50 yards—first, Mary Russo; second, Marian Nalea; third, Mrs. W. T. Jones.

Shot put—first, Pete Russo; second, Charles Hammond.

Broad jump—first, Ralph Brooks; second, Herbert Smith.

100 dash for girls 16 and over—first, Margaret Fisher; second, Carrie Russo.

100-yard dash for men—first, Earl Turk; second, Frank Bullyk.

Catch-the-greased pig race—Carman Orlando.

Throughout the day's program the Pennsylvania band played numbers for the occasion. The weather was ideal although the wind and the dust from the running track proved somewhat annoying to the assembled spectators.

At the end of the story.

A shoot for men of the division and others interspersed the program of the morning. George W. Schmidt was high scorer for the day, clipping 47 birds out of a possible 50. The wind made it bad for the marksmen but several made fairly good scores. The winner, Schmidt, was given a box of cigars.

Those trailing Schmidt were as follows: L. C. Johns, 40; Clarence Stapp, 40; Dr. J. H. Carpenter, 38; M. T. Stone, 37; Dr. R. C. Gilmore, 37; Clement, 36; G. M. Wilkinson, 36. Others participated.

Wins Award. The E. & A. division has offered a prize of \$10 in gold and the one whose name was on the ninth card drawn was awarded the prize. A. Placco of Mahoningtown was the fortunate person. Cannot Cheat On Traffic Lights

Burns Ordinance To Prevent
Motorists From Cutting
Lights

Motorists who "cut" through gasoline service driveways to avoid waiting for the "Go" sign at traffic lights will soon have to pay a fine. This was indicated when Council-

man Burns ordered Solicitor Robert White to prepare an ordinance banning this practice. He said this has happened in the seventh ward and may happen on the North Hill when lights are erected. Councilmen, in session today at the city building, concurred in Mr. Burns' action.

RETIREES EIGHT

HARRISBURG, July 5.—At the June meeting of the state employees' retirement board, Department of State, eight state employees were granted superannuation retirement. They were: Fred Beach, Auditor General's Department, 21; Anna B. Padon, American-made.

Pennhurst school, 10 years; Harriet Jackson, Revenue Department, 15 years; Chancery B. Ross, Department of Mines, 21 years; Mary Hollingsworth, Norrisdown State hospital, 10 years; Austin Carey, Polk state school, 15 years; Anna E. Hollsworth, South Mt. State Sanatorium, and Harry W. Hoover, Polk state school, 31 years.

BOARD TO MEET

Hillsville school board will meet tonight to audit the books of the district. Other matters will also probably come before the board.

Lay Pavement On North Street Bridge

Work has been started on laying the brick pavement for the North street bridge, and but for the heavy rain of the night would probably have been completed before the end of the week.

As soon as this work is completed and the sides of the structure have been concreted the bridge will be ready for use. The city will have to

prepare the approaches to the structure, however, and work on this is expected to be started soon.

Candidates Out After Signatures

Today is the first day for the securing of signatures to nomination petitions and early this morning candidates were on the streets with petitions and townsmen pens in hand.

RIDES INTERURBAN BUT DOES NOT PAY

About 6 o'clock last night, Mr. and Mrs. O. dispatcher noticed the police that there was a man who was riding back and forward on the Youngstown-New Castle interurban car but refused to pay his fare. Officers Thompson and McKee saw the car and arrested him. They found him with a pocket full of money and a very angry expression on his face. He was taken to the police station and is now being held.

Two Gangsters Under Arrest

Two Alleged Chicago Gangsters, Cronies Of Al Capone, Arrested In Paris

CONFESS ATTEMPT AT STOCK SWINDLE

By FREDERICK K. ABBOTT
International News Service Staff Correspondent
PARIS, July 5.—Two alleged members of "Scar Face Al" Capone's Chicago gang, were arrested here today by the United States secret service.

According to the officials the two prisoners admitted that they were making preparations to attempt to sell worthless American stock in an alleged securities swindle.

The men were booked as William MacCherry, 54, and Victor Loring, 39, alias Robert Miller. They were arrested in a fashionable hotel in the Champs Elysees.

It is assumed the alleged gangsters came to France from America when it became "too hot" for them in Chicago, following the arrest and sentencing of Capone himself in Philadelphia.

Capone is now serving time in a Pennsylvania prison, having been found guilty of carrying concealed weapons.

Leaves Millions By Strange Will

INDIANAPOLIS, Ind., July 5.—Public bequests of approximately \$150,000,000 to be available in 2129 were made in a will filed for probate here which provides for \$30,000 to be left intact for 200 years at compound interest.

The will was that of Will H. Latta, Indianapolis street railway company attorney, who was killed last Wednesday night when an automobile he was driving was struck by a Monon passenger train near Carmel, Ind. At the time he was enroute to Fort Wayne, where he was to marry Miss Emma Margaret Sander. Miss Sander was given one-fourth of the remainder of the estate after the public bequest.

Latta wrote the will in longhand June 6, only six days before his death.

Children's Pet Show Is Newest Idea For East

(International News Service)
WALTHAM, Mass., July 5.—What is a popular yearly function in the far west, the pet show for school children, has invaded the east.

With a total of 412 entries, including even fish and birds and the usual assortment of animals, Waltham held its first annual pet show. Among the exhibits were all sorts of dogs, cats, rabbits, guinea pigs, turtles, chickens and roosters.

The show was under the direction of Miss Hilda N. Olsen, nature inspector, and was for the boys and girls of the Waltham public schools. Forty prizes were donated by merchants of the city for the prettiest, largest, funniest and best behaved animals. A demonstration of the proper way to train a dog, was also held.

Giant Air Liners For London-Paris

(International News Service)
LONDON, July 5.—Giant Handley-Page air liners, carrying 40 passengers will be put into operation here next spring.

The new machines which are now being built, will be huge biplanes driven by four engines of 500 h. p. each. There will be separate compartments and passengers will have as much freedom as in corridor trains.

Unlike the Handley-Page Napier air liners now in service on the cross-channel routes, in which every seat is a corner seat, passengers in the new planes will sit four abreast as in many railroad coaches.

They will be twice as large as the air-liners in present-day use.

PLANT QUARANTINE IS PRACTICED BY EGYPT

(International News Service)
DETROIT, July 5.—Methods of plant quarantine were studied here by A. S. Fawzy, delegate to the Ministry of Agriculture of Egypt.

According to Fawzy, Egypt at present protects her plants by banning importation of sugar cane, olives, cotton, fruits and date palms.

Store Wise and Otherwise

"Don't Take Yourself Too Seriously"

Is often quoted but there are times when one should take himself very seriously, otherwise life would not be a success. The most successful life is a life giving serious thought toward serving others, and so it is with a store. The progressive merchant is constantly giving serious thought toward making his a better store in which to shop. We hope to continually improve this store through serious thought that you may always call Offutt's your Home Store.

Pick Perfect Girls For Elevator Jobs

(International News Service)
KANSAS CITY, July 5.—It has been a general custom among people of the United States to find the "perfect" of everything. The perfect wife, the perfect home, the perfect husband and the like are always set up as ideals to which one hopes to attain. And even elevator girls are not exempt from such a classification for the perfect elevator girl has been discovered here.

She will not be a model of sophistication in flashy make-up, nor will she be the vamp type which inspires masculine attention. She will be plain and simple—both in dress and in personal attire.

At any rate the squirrel would permit some folks to feed and pet it, while biting others fiercely. John Dahlberg, Mrs. George Lapine and Mrs. Alice Vingo were so severely bitten on successive days that the one doctor in the village had his hands full. Other members of each family stroked and fed the squirrel without experiencing trouble.

Finally Milton Carpenter took down his shot gun, killed the squirrel and sent the carcass to the state laboratories at Hartford, asking if it had rabies.

Women's Knees Ugly Says Actress At 80

(International News Service)
LONDON, July 5.—"Modern women find it much easier to do without hair, and I have never seen so many ugly knees in my life. I think that my own sex today dress in a way that is appalling."

This statement was made by Dame Madge Kendal, the 80-year-old actress, before an assembly of women.

HOUSTON SAVES MONEY ON DEAD ANIMALS IN STREET

(International News Service)
HOUSTON, Texas, July 5.—The Handfield Brothers Packing company here was recently granted permission for 60 days to collect dead animals from the city streets. The packers announced that they would use the dead animals in making fertilizer.

After the 60-day period the city will advertise for bids for the privilege, it was stated. This city will pay for the removal of the carcasses of dead animals, now it plans to let them rot in place.

Student Killed Near Butler, Pa.

Helen Sanford Of Buffalo Killed When Car Is Forced From Road

DRIVER OF OTHER CAR FLEES SCENE

Helen Marion Sanford, 18, student at a Lakewood, O., school was instantly killed Thursday morning when a roadster she was driving was forced off the road at Crammer Hill, Butler-New Castle highway. Miss Sanford's home is in Buffalo, N. Y. It is reported by Butler authorities that the driver of the car which forced her machine from the highway fled and will be arrested at Akron, this afternoon.

According to a report of the accident, Miss Sanford was driving the car of J. C. Brown of Aspinwall to his home.

The car was going up the Crammer hill, which is six miles from Butler. When near the top, a car coming toward New Castle, is reported to have forced her car off the road.

To hit the ditch along the right side of the highway then leaped to the left side of the road. When rescuers ran to the wreck Miss Sanford was dead. She sustained a fractured skull and broken leg.

The driver of another car which had been following the machine which it is alleged had forced the young girl's machine from the road chased the car and caught the number, it is said, he is said to be in Akron.

He is to be arrested this afternoon, it is said.

Miss Sanford was residing at 1588 Robinwood Place, Lakewood, O., while attending school there.

Federal Agents In Oklahoma Slay One, Companion Wounded

New Prohibition Slaying Reported In Oklahoma Aftermath Of Liquor Raid

International News Service. OKLAHOMA CITY, Okla., July 5.—Federal prohibition enforcement agents have barked again and today James Harris was dead and his brother-in-law, Oscar Lowry, lay probably fatally wounded.

Shooting of the men occurred during a liquor raid near Tecumseh, Okla., late yesterday. Because of conflicting statements by principals in the affair a clear understanding of events preceding the shooting was impossible today.

No report of the shooting had been received here this morning by Bee Demuth, deputy in charge of federal prohibition enforcement for Oklahoma, from W. W. Thompson, enforcement officer for Seminole and Pottawatomie counties. While refusing to comment on the case, Demuth said an investigation would probably be made after a report has been received from Thompson.

Contract To Be Awarded Soon For 568 Feet Of Road At Park

Sealed proposals will be received at the state capitol until 10 a. m. July 18 for the construction of 568 linear feet of one course reinforced concrete pavement 18 feet wide in Shenango township on route 315 according to the announcement from the Department of Highways.

This stretch of road will connect with the city line at Cascade park and will extend to the concrete road constructed during the past year just beyond the railroad bridge on the Exwood-New Castle route.

The work will probably begin shortly after the awarding of the contract according to the announcement.

Story Hour Feature At Y. W. C. A. Camp Thursday Evening

A story hour was a feature of program for Fourth of July at the Y. W. C. A. camp. Miss Grace Lowers was in charge. Miss Lowers also conducted a sing, teaching the girls some new songs.

There are 71 under-privileged girls in camp this week. There is a special program for each day. Handicraft is proving very interesting for the girls. At the present time they are making post-holders under the direction of Miss Lowers.

Beginning Monday the Y. W. C. A. camp will be open to the public. All persons desiring to spend some time at camp should register at once at the Y. W. office.

City To Proceed Against Harmony

Railway Company Fails To Make Improvements Asked By City

Council today instructed Solicitor Robert White to proceed in court against the Harmony route which councilmen alleged has failed to comply with the provisions of the franchise.

The city has asked the company to remove "junk" and fix Paul street. Weeds along the rails also have brought complaint.

The company also has been asked to do work in Stanton Avenue and has not done anything. It was alleged.

Today's action was precipitated by a letter from J. F. Genkinger who pointed out that the rail company has not done as requested.

Councilman Reeves said he had talked to Superintendent Etheridge and all he had received was promises.

Generally, the Harmony route was accused in council of not doing anything in the Paul Street section. Councilman Burns then submitted a motion which passed, which will result in the city fixing the Paul Street nuisance.

The bill will be sent to the company and White will ask the court to force the company to comply with other franchise provisions.

Two Traffic Lights In Highland Avenue

Council Decides To Protect Highland Avenue School Children

Council today awarded a contract for the purchase and installation of traffic lights at Park and Highland avenues and also at Laurel and Highland avenues. The total cost will be \$625. The lights will be secured from the Arnold company.

The light at Laurel and Highland will act as a protection for school children.

Council was told that it would prevent motorists from rushing to make the "green" at Park when journeying south on Highland.

The same was recommended at Highland and Park as the school is situated between Park and Laurel in Highland avenue.

Stagger system will be adopted. Councilmen also considered the suggestion of Solicitor White that a light be placed at Wallace and Highland avenue.

Council admitted that the traffic and hazards are present at that intersection but no light was recommended.

Duff Will Speak At Mount Jackson

Wendell Duff, former resident here, and now a missionary in India, will speak at the regular service of the Mount Jackson U. P. church Sunday morning at 11 o'clock Eastern Standard time.

The talk will embody experiences of the missionary while at his work in India and conditions of that country will be related.

Stringent Rules Are To Control Flying In State

State Aeronautics Commission Is Preparing To Take Over Aviation

HARRISBURG, Pa., July 5.—Pennsylvania may soon become the air utopia of the United States.

Pennsylvania's new aviation code went into effect this week and the State Aeronautics Commission is busy with the work of drafting rules and regulations to make the air safe for fliers.

In the future old, obsolete and broken-down planes will be consigned to the junk heap before they crash to the same heap, with a possible loss of life.

Inexperienced pilots will be ordered to "go get a reputation" and every flying field in the state, private and commercial alike, must have a state license before it will be permitted to operate.

One of the first moves of the commission, it was pointed out, will be the appointment of competent inspectors who will be on duty at all important airports and landing fields.

The new commission, with the same jurisdiction over the airways that the Public Service Commission has over the varied modes of land travel, has an appropriation of \$175,000 for its use during the next two years.

BARBER SAYS IT MADE HIM FEEL LIKE NEW MAN

Thankful For Famous Ten Herbs Because It Swept Away Health Troubles.

Every day more men and women of this section are praising Ten Herbs, the celebrated herbal compound, which for some time has been a tremendous success in this city and surrounding towns and countryside. They tell how this modern preparation ends stomach, liver, kidney and bowel disorders; how it cleanses the human system; drives out waste matter, impurities, and troublesome gas; how it puts an end to the aches and pains of rheumatism and neuritis and banishes nervousness. You, too, may know the happiness that good health brings if you will give Ten Herbs a trial.

Ten Herbs made me feel like a new man," said Mr. John K. Ruffo, well-known barber, 224 Plymouth St., Pittsburgh, Pa. "I used to have trouble with my stomach. I would get so full of gas that I could hardly breathe—I had pains and heartburn after every meal. Often I would vomit, and at times I would be so dizzy I would nearly fall over. My tongue was always coated, and I had to arise many times every night. I was also troubled with constipation for a long time. Severe headaches came on me, and there was an awful pain in my spine. With all this, together with nervousness, I could not sleep at night, and would feel very bad during the day.

"I tried many different kinds of medicines, but never got satisfactory relief until I used Ten Herbs. How thankful I am that your medicine cured all my health troubles so that I could enjoy life once more. Ten Herbs gave me perfect health, and that is why I am willing to give it a public endorsement.

Ten Herbs is sold at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, and at all drug and medicine stores throughout this entire section.

Madrid Continues To Reap Honors On Rescued Aviators

Major Ramon Franco And His Companions Are Lionized By Spanish People

MADRID, July 5.—Fetes in honor of Major Ramon Franco and his three companions of the hydroplane Numancia continued unabated today.

Following luncheon with Queen Victoria at the Royal Palace, the aviators were scheduled for a round of entertainments this afternoon to be followed by a gala theatre performance tonight.

In the early hours of this morning, the aviators, accompanied by the officers of H. M. S. Eagle, the British aircraft carrier which rescued them after they had floated for a week near the Azores, visited the popular Rosales Cabaret to sup and dance. They were wildly cheered by the merry-makers, and deluged with requests from pretty señoritas for the honor of a dance.

Officers of the Eagle are returning to Gibraltar today.

Sets \$5,000,000 Aside As Special County Aid Fund

Stuart Announces Additional
Allocation For Road
Building

HARRISBURG, July 5.—Allocation of \$5,000,000 to sixty-six counties of the Commonwealth as a special aid fund for the improvement of highways on the State highway system is announced today by James Lloyd Stuart, Secretary of Highways. All allocations are on the same basis as the State aid fund.

While conferring with the boards of county commissioners concerning their preferences under the Wheeler act, Secretary Stuart announced that arrangements were being made to carry out the provisions of the act for the allocation of \$2,135,000 to the various counties on a 100 per cent basis for the reconstruction of roads on the system. Many of the boards of commissioners offered to match a certain sum of money on the same basis as the State aid system, if the State would co-operate with them. It appears to be the desire of all the counties, Secretary Stuart said, to have the entire State highway system completed as soon as possible.

Although the construction program of the Highway Department will be considerably increased through the additional gasoline tax and increased license fees, Stuart feels that when counties desire to co-operate in highway improvement they should be encouraged. The allocation of the \$5,000,000 resulted from this decision.

Must Use Funds
Application for use of the money allocated may be made by formal action of the commissioners, asking the approval of the State on the

project. Should counties fail to take advantage of the full sum allocated, the remainder will revert to the use of the department and no redistribution will be made. All work done with the money must be on highways, a State system. A similar fund was set aside in 1927 and used to advance the highway system. This method of financing highways was unanimously approved by counties, townships and municipalities of the State.

The basis of allocation was the comparative total mileage of town ship and county roads in the county. Lawrence county has 745 miles of township and county roads and its allocation is \$43,147.75.

Farm Production In 1928 Valued At \$199,177,000

Is Estimated For Principal
Crops—Equals Eight
States

HARRISBURG, July 3.—Six Pennsylvania counties each produced principal field crops valued at more than \$5,000,000 in 1928 and only nine produced less than \$1,000,000 worth of these crops, according to the Bureau of Statistics, Pennsylvania Department of Agriculture.

Lancaster county produced almost twice as much in value of principal farm crops as the State of Delaware and thirty counties each produced more than the entire state of Rhode Island. The Commonwealth, as a whole, produced more than the total of eight states—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey and Delaware.

Lawrence county has crops valued at \$1,774,750 and is rated as 45th in the state.

Denver Engineer To Aid Soviet Project

DENVER, July 5.—Lynn E. Bishop, outstanding engineer of Denver and Colorado, has been chosen as consulting engineer for irrigation construction in Soviet Turkistan by the Russian government, according to announcement here.

Bishop left Denver early in June for a 12,400 mile trip to Moscow. After a brief stay in Moscow, he will go to Tashkent, Soviet Russia, where he will make permanent headquarters at least for the two year term of his contract with the Russian government.

Bishop will work with a three-corner construction program planned by the Russian government. The first will be a huge irrigation project in Soviet Turkistan that involve more than 100 million dollars. The second is the construction of a hydroelectric plant which will cost 100 million dollars and of which Col. Hugh L. Cooper, of Muscle Shoals fame, is supervising engineer, and a Siberian-Turkistan railroad which will also cost in the neighborhood of 100 million dollars.

Bishop graduated from the University of Colorado in 1908. Since that time he has been connected with every major irrigation and water supply project in Colorado and Wyoming. He has been especially prominent in planning extensions for the Denver water supply and irrigation projects in Southern Colorado.

Ostriches Swallow Diamonds In Africa

JOHANNESBURG, July 5.—Following the discovery of diamonds in the crops of ostriches, natives and whites are hunting the birds and reaping appreciable fortunes, according to a story published and vouched for by the Rand Daily Mail.

The story came to light through two Pretoria hunters who were shooting on the fringes of the Kalahari desert. They shot two rock birds, in whose crops they found 70 diamonds. One had 53 and the other 17.

Hunters are organizing a hunt on a large scale under a permit from the administration of southwest Africa.

Eat vegetables for beauty

What we eat has to do with how we look

EAT vegetables for a healthy—hence clear and beautiful—skin, is the way a recent address by a professor of medicine might be summed up. Specifically he mentioned cabbage, carrots and spinach. It may be news to many women that the vegetable garden or market is first aid to the beauty parlor.

There is nothing new about this, however, to scientific and medical authorities. Good skin, as well as good health generally, is largely a matter of what we eat. In a very real sense, the children, women and men of the United States are as good as their diet.

Every woman interested in feeding her family will be interested in the results of a series of experiments recently conducted by a group of nationally known women cooking experts. They searched for a way to make vegetable foods so tasteful that practically everybody will enjoy them. Their recommendations are: (1) Use very little water in cooking the vegetables. (2) Add a dash of sugar to the vegetables while they are cooking.

Bear in mind that this dash of sugar does not make the vegetables taste sweet. Sugar is nature's supreme seasoning. In this case it brings out the delicate vegetable flavors, and it also improves the vegetable freshness and color. In addition to milk, cereals, fruits and meat, eat at least one raw and one cooked vegetable a day. Remember cookies, candies, stewed fruits, berries or ice cream for dessert. A bit of sweet makes the meal complete. The Sugar Institute.

Mystery Attends Shooting Of Man

Contradictory Stories About Shooting Near Washington, Pa., Causes Probe

WOMAN AND MAN ORDERED ARRESTED

WASHINGTON, Pa., July 5.—An air of mystery and contradiction today surrounded the shooting of Charles Lee, 30, of the Washington, Pa., school teacher, who was in a critical condition in Washington hospital.

Orders for arrest of Mrs. Velma Miller, 30, wife of the wounded man, on a charge of attempted murder and Walter R. Conklin, Houston, Pa., on a charge of accessory, had been given by District Attorney W. S. Burchinal, conducting the investigation. Bond for Mrs. Miller was set at \$5,000.

Conflicting stories of the shooting of Lee at his home at Houston, Wednesday, were said to have been told even by Lee himself. Houston authorities had recovered the revolver believed to have been used in the shooting. It was found in an outbuilding.

Statement Taken. The bullet entered Lee's back and left his body just below the heart. Physicians at the hospital said he was improving, but still was near death. Lee's statement was taken directly after he was found by a policeman called by neighbors. The statement was taken because of the gravity of the wound.

Burchinal refused to reveal the confession either of Mrs. Lee or of the garage man with the case. Houston police said Conklin and Mrs. Lee had been friends for a number of years.

Lee and his wife had been residents of Houston, all their lives, authorities said. They have two children living, Eleanor Jane, 8, and Charles Lee, Jr., who will be two years old tomorrow. One child was drowned in a cistern near the Lee home two years ago, Houston police said.

Mrs. Lee was said to have told police the shooting was done by a burglar when she refused to give him money. Two other bullets were found embedded on the wall of the room where Lee was shot.

car of Stanley J. Puzio of this city, at Moody avenue and Mercer streets. Mr. Puzio had Mrs. Melver removed to the hospital.

Boy Injured. Patsy Demareo, a boy residing at 728 Oak street fell off the rear of the truck of John Barry of 212 Fairfield avenue, with which he was being delivered. Wednesday on Raymond street. The driver, James McCracken did not see the boy get on. The boy was injured some but the mother exonerated the driver.

Small Boy Hurt. John Matseko, aged 4, of 50 West Terrace avenue, was injured about the legs Wednesday when he ran into the machine of Russell B. Canan of Tempalena avenue, as he was running across Moravia street, as the automobile was going south on Moravia street. Mr. Canan took the boy home after having him examined by a physician.

Boy Hurt. Clarence Swoboo, aged 4, 1601 Moravia street, was slightly injured Thursday when struck by the machine of John Joseph Soho of High street, as it was being driven south

on Moravia street. The boy was struck as he was running out into the street. Mr. Soho took the boy to the New Castle Hospital, where it was found that he had escaped serious injury.

Girl Is Injured. J. V. Browning of R. D. No. 4, reported Wednesday that he was going west on Craton avenue in front of the Crisel service station, when a little girl ran out in front of his machine and was hit by it. The girl refused to give her name and address and she was not injured.

Foot Injured. Rev. A. M. Stump, 301 North Jefferson street, reported that he was going south on Jefferson street near the Harlan service station when a girl stepped from the curb and his automobile ran over one of her feet. She was not seriously injured according to her own statement.

Numerous other traffic accidents were reported to the police in which some damage was done to machines, but no person injured.

In Hospital. Samuel Mailey, Laurel place, is in New Castle hospital, having been injured when struck by an auto operated by Wilber Hockenberry, R. D. 5, Shippery Rock, yesterday afternoon. He is not seriously hurt, but he has lacerations and bruises on head, face and limbs. According to State Highway police reports the accident occurred immediately outside the city along the Harlandsburg road. Mailey was walking along the highway. Cars were coming from different directions and the Hockenberry car struck him.

Cars Crash. The cars of John M. Cutton, Cleveland, O., and H. D. Mogoun, Beaver Falls, crashed along the Butler highway. The steering knuckle on the Cutton car broke and the machine became uncontrollable. No one was hurt. The cars were damaged.

Automobiles of Larry Frank, Grantam, W. Va., and Robert Gout, R. D. 1, Hubbard, were damaged in a collision east of New Bedford.

Fine Assessed. Alfred Worrell, Ellwood City, was fined \$10 and costs by Squire Zedaker, New Bedford as the result of a four car crash. State Highway police claim that Worrell made a reckless drive to pass cars and four of them figured in the resulting crash. The cars were owned by John Miller, Cleveland; C. W. Simpson, Cleveland; A. J. Forkey, Greensburg, and Alfred Worrell, Ellwood City.

The new air service connecting Panama, Nicaragua, Honduras, British Honduras and Cuba is said to be a success, and will be extended to Trinidad and San Juan.

Air Mail Time Is Further Reduced

(International News Service) CHICAGO, July 5.—Flying time of the transcontinental air mail planes which has been cut recently to 31 hours between coasts, will be further reduced by the use of auxiliary amphibian planes at both Chicago and New York, the American Air Transport association announced here.

Test flights already have been conducted here with planes which meet the inbound mail. The smaller planes take the mail to Grant park, within ten minutes of the postoffice, and fly back with other mail, eliminating almost two hours' time.

New York air mail is landed either at Newark or Hadley field, N. J., 45 minutes and two hours respectively from the Manhattan postoffice. By ferrying the mail from either of these airports much time is saved.

Rains Ruin Straw Hat Trade In Paris

(International News Service) PARIS, July 5.—Straw hats are about to disappear from Paris.

This information comes from no other source than the vendors of straw hats themselves, in this city, and is an admission made with much sorrow.

It is the bad spring weather which has been the last straw in the straw hat business, according to hatters.

During the last two years the sale of straw hats has decreased by half, and because of the almost constant rain, none at all were sold this spring. Through out May no straws whatsoever were to be seen on the streets of Paris, and the dire predictions of the hatters seem to be fully justified.

Legion Post To Mark Confederate Grave

(International News Service) HUDSON, N. Y., July 5.—The grave of a Confederate veteran in Cedar park cemetery here will soon be marked with a headstone as the result of efforts of Hudson post of The American Legion. The post wrote to Joseph M. Carr, adjutant of the Georgia department of the Legion, for a marker similar to those used by the United Confederate Veterans.

Adjutant Carr advised the post that the Georgia Legion would be glad to provide the kind of headstone requested.

CERTAIN RUMORS

Are being circulated about town as to the reason for the change of Packard dealership in New Castle and Lawrence County. Here is the reason:

We have been granted additional territory to our Oakland and Pontiac distributorship, thereby increasing our duties to an extent that makes it necessary for us to resign as Packard dealers.

To Be Probed. WASHINGTON, July 5.—The department of commerce will make a rigid investigation into a physician's report that Wilmer Stultz was "intoxicated Monday when he crashed two passengers and himself to death near Roosevelt field, N. Y."

The department's regulations deal heavily with pilots who drink. Officials declared that when it is known an aviator attempted or actually operated a plane while under the influence of liquor, his flying license is revoked. And added:

"One of the main questions we ask applicants for pilot's license is whether he uses alcohol."

old record of 172 hours, 31 minutes, 30 seconds at that hour. If they can keep the big blue Stinson-Detroler aloft until 12:10:21 a. m. tonight, or one hour longer than the present record, they will be credited with setting a new endurance record.

If they succeed in setting a new endurance record, the "City of Cleveland" pilots hope to remain in the air until they have passed the 200-

hour mark and possibly longer, depending upon the condition of their plane at that time.

Refueling Plane Damaged. Cleveland, July 5.—Undaunted by the crack-up of their refueling plane, Roy L. Mitchell and Byron K. Newcomb scoured over the Cleveland airport in the monoplane City of Cleveland today, heading swiftly for a new world's endurance flight record.

While Mitchell and Newcomb entered upon their seventh day of continuous flight, efforts were being made at the airport to replace the refueling plane with another in order that the fliers' descent attempt to set up a new record should not be jeopardized by circumstances beyond their control.

The refueling plane was forced down at 8:15 last night in a heavy thunderstorm while trying to install a new 75-gallon load of gasoline in the City of Cleveland's tanks. Attempting a take-off a few minutes later, the refueling plane ran into a wire fence, breaking its propeller, wrecking the left under-carriage, and damaging the motor.

Sponsors of the flight immediately arranged with the Thompson Aircraft Company for the use of another plane, and work was immediately begun to equip it with a large steel drum as an emergency gas container. It is hoped the refueling can be continued in this way. In the

meantime the City of Cleveland has enough gasoline to remain in the air until late this forenoon.

School Cost Per Pupil Shows Wide County Variance

Usually Is Least In More Sparsely Settled Sections

COST HERE IS \$75.47 PER PUPIL

HARRISBURG, July 5.—School costs for each pupil who attends varies widely in different sections of the commonwealth, according to a study made by the department of public instruction for the purpose of the report. Under the "current expense" classification in most instances the more sparsely settled counties expended the smallest amounts for each pupil. Lowest of all was Clearfield county, with an average expense of \$53.42 while Schuylkill was only a little higher with \$54.50.

Pike county was an exception to the small population rule, spending \$123.35, while in Philadelphia the cost was \$114.92, and in Allegheny \$109.26. The department's studies divided costs both under "current expenses" and "total expenses".

"Current expenses" cover all moneys expended for the general operation of the system, including costs of administration, teachers' salaries, textbooks, supplies, fuel and repairs. The cost thus determined, school officials believe, reflects accurately the actual educational expenditures.

Under "total expenses" is included in addition to current costs all moneys expended in the enlargement of the school plant such as the acquisition of new rights, erection of new buildings and the cost of financing such projects. Because of county school construction costs vary greatly in some years, averages would reflect annual expenditures and often are not representative on the cost unless taken over a long period.

In Lawrence county the "current expense" per pupil is \$75.47 and the "total expense" is \$126.73.

Railroad Is Blamed In Crossing Deaths

SHARON, Pa., July 5.—Criticizing the lack of protection given the traveling public a coroner's jury of Mercer county at an inquest, held the Sharpsville Railroad company directly responsible for the automobile collision last Saturday which killed Laupine Infield, school teacher at Sharon and Leo McGavin, also of Sharon.

The accident occurred at a grade crossing on the Mercer-Sharon road when the car driven by McGavin was struck by the only train operated daily by the company over the line. The jury's verdict exonerated the train crew and recommended the company be compelled to place an approved warning or device or station watchman at the crossing immediately.

Top Wool Prices For Some Fleeces

Western Pennsylvania Leads
In Sales For This Year's
Clip

Decline In Boston Seems
Checked; Cloth And Top
Makers Buy

BOSTON, July 5.—The season's top prices for fleeces in growing sections have been paid in western Pennsylvania, 33 and 33½ cents being given. These wools are a shade finer than the similar Ohio product.

The decline in value of fleece wools in Boston seems checked, although they remain the weakest market feature. Mills are buying Ohio Delaine freely at 32 cents.

Some lots are held at 40 cents, but 42 cents is no longer suggested, although prices recently paid in the central west need that figure to give purchasers a profit.

Ohio fine clothing has sold at 33½ cents, the ordinary market is 34-35 cents. Quarter-blood fleece has stiffened, selling at both 42 and 43 cents, against a recent 42 cent top. Three-eighths blood fleece has sold at 44 cents and 45 cents, knitters and worsted mills competing. Half-blood is selling at 43-44 cents.

Territory quarter-blood also has stiffened a little, selling at 80 cents, clean, or a trifle less, while three-eighths blood territory is well sold ahead at 88-90 cents, clean. Cloth and top makers are steadily buying French combing territory at 90-93 cents, clean, much having moved recently. Half-blood is slower at 95 cents.

New Texas wools are in fair demand, 12 months selling at 90-93 cents, clean, according to quality. Eight months is quoted at 88-90, clean. Eastern scoured pulled wools have declined further, but A and B supers remain steady and moderately active. At Roswell, New Mexico, Monday, 1,100,000 pounds were offered and

350,000 pounds taken by a Rhode Island mill and Boston dealers, at 20-25 cents, grease, or 30-35 cents, clean, landed Boston.

Some offerings were withdrawn. A large portion of the wool concentrated at Lakewood, Ore., was offered the past week, 25-29 cents being asked. Buying was slow. Some of the best eastern Oregon wools have been taken recently around 80 cents, clean, landed Boston. Additional buying of 12 months wool in Texas is noted at 25 cents, clean, landed.

Buyers are paying 31-32 cents for selected clips in Montana and 25-29 cents for ordinary growers and buyers are mostly at odds and much Montana and Wyoming wool may be consigned. Dealers urge consignments when growers object to offers. It is estimated that over 70 per cent of the new domestic clip is sold or consigned already.

"Whoopie" Makers Checked By Police

Pittsburgh Police Clamp Down
Lid On Fourth Of July
Celebrators

(International News Service.)
PITTSBURGH, July 5.—Makers of July 4th "whoopie" were seriously hampered by officers, a checkup at police headquarters showed today. A gallon of moonshine and Herbert Leach, Penn. township, proprietor of a pool hall, were taken into custody when two men started a private riot in his place.

The "Seonac Club" on the Allegheny river at Edgewater, was raided by officers who arrested the proprietor and sixteen visitors. Liquor was said to have been confiscated there.

Germany paid out more than \$225,000,000 in unemployment relief last year.

Raspberry Meeting Will Occur Tuesday

Local Agricultural Extension
Sponsors Public Meeting
For Berryman

John U. Reuf will speak on "Culture of Raspberries," and G. A. Zundel will speak on "Disease of the Raspberry," at the public meeting which will occur at 8:30 o'clock, Eastern Standard Time, Tuesday morning at the farm of R. E. Trimble of the old Pittsburgh road near East New Castle.

The meeting is sponsored by the local Farm Bureau and both of the speakers are specialists from Pennsylvania State College.

A second meeting will take place in the afternoon at 1:30 o'clock at the L. J. Wilhelm farm on the Mercer-Sharon improved highway. These same two speakers will make addresses at this meeting.

The Mercer Farm Bureau is sponsoring the latter meeting in conjunction with the Lawrence county extension.

PERCIE IS HURT IN CRASH JULY 3

William Percie of Bessemer was severely cut about the face and head Wednesday evening when the truck which he was driving collided with a truck from Youngstown, Ohio, on the Bessemer-Poland road at Ginger Hill near New Middleton.

Percie's truck was demolished, according to the report, and the man barely escaped a much more serious injury.

AUTOMOBILE THIEVES ESCAPE FROM BULLETS

(International News Service.)
PITTSBURGH, July 5.—Three alleged automobile thieves who escaped Motorcycle Policeman George Best, despite the fact he emptied his revolver at them, were sought by authorities today. The chase occurred on the Manchester bridge. The machine was later abandoned by the men.

Czechoslovakia now has 15,000,000 acres of arable land.

Asks Banks For Interest Reports

HARRISBURG, Pa., July 5.—State Treasurer Edward Martin has mailed to all the state's active and inactive depositories blanks for the purpose of preparing interest reports. Under the new fiscal code all interest on state funds is collected by the state treasurer. Interest reporting periods have been changed from April 30 and October 31 to June 30 and December 31. The next interest period will cover the two months ending June 30, 1929.

These reports must be prepared in triplicate and forwarded to the state treasurer. Only one fund may be included in a report. The duplicate copy is for the use of the auditor general and the triplicate for the Department of Revenue.

All interest reports must be filed on or before July 30 to avoid the imposition of a 10 per cent penalty. State Treasurer Martin also has requested the depositories to attach

a check to each original interest report paying the amount of interest admitted to be due. The large bank balances the state has had during the last few months mean that a considerable amount of interest will be collected.

Boy Swallows Pin, Laughs, Coughs It Up

(International News Service.)
HONOLULU, July 5.—Thirteen-year-old Solomon Kaloohalahala, of the Kalia Boys' home is a lucky laugher. After he had put a pin in his mouth and accidentally swallowed, his teacher took him into the emergency hospital at police headquarters.

While Solomon solemnly sat in the operating room, Police Surgeon Robert E. Faus made a more or less witty remark. The boy laughed, choked and coughed up the pin.

Man Is Wounded; Four Are Hunted

PITTSBURGH, July 5.—Shot in the head by an Independent candidate, George Charles, 33, was in a hospital tonight, being treated for a wound. He was shot while passing a woman's car in a crowded street. The woman, who was driving, was also wounded. The suspect, who was a member of the "Black Legion," is being hunted by the police.

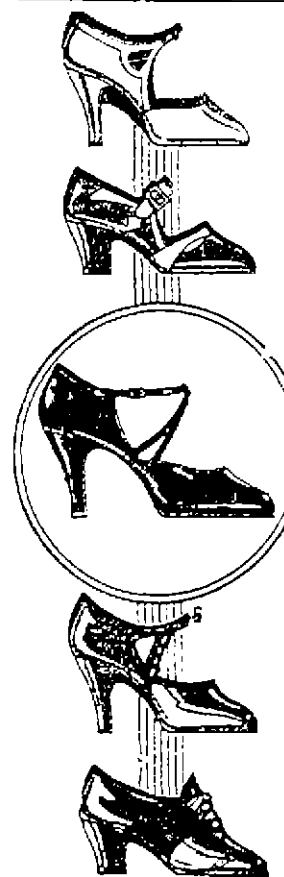

Farmer of Chatham, Virginia, has been shot in the head by a member of the "Black Legion." The suspect is being hunted by the police.

To The Doctor It's Only An Order To You It's Only A Piece of Paper To Us It's Our Good Name and Reputation

A matter of routine to the doctor to write a prescription; important in the sense that it represents the result of his long training and his extreme care in the guarding of your health. To you it's only a piece of paper upon which meaningless words are written—Latin, which you do not understand, but in Latin because Latin is a dead language and not subject to any change or misinterpretation; to us it's our good name and reputation.

JAMES M. BECK

Yet such is the talk. The rumor that Representative Beck is slated for the senate.

Beck was solicitor general in the justice department during the Harding administration and part of President Coolidge's.

The job is less showy than the attorney general's, but about as important. Beck was a member in it.

He resigned, perhaps, because he was tired of doing most of the work while somebody else got most of the credit.

Soon afterward, William S. Vare was elected from Pennsylvania to the senate seat which the senate has balked so long on letting him occupy.

Beck prepared a local opinion demonstrating why, under the constitution, Vare was entitled to it.

It did Vare no good, but it pleased him so much that he resolved to confer on Beck the place in the house of

representatives which he (Vare) had abandoned, to run for the senate.

It virtually was an appointment. Vare's Philadelphia dealership being so absolute. True, Beck's residence there was questioned; but he convinced the representatives, who seemed him—naturally regarding him as a regular of regulars.

Why shouldn't there?—the choice of the super-regular William S. Vare, to represent the most regular district in the most regular state in the union?

In other respects it was quite a chance.

Vare was an admitted roughneck, who had risen from the Philadelphia street cleaning department. No man in America has a finer education than Representative Beck—an LL. D., the wearer of half a dozen foreign decorations and a member of dozens of learned, artistic and literary societies the world over—an aristocrat—an

author.

But nobody questioned his regularity for a minute.

Away back in his days as solicitor general, Beck made a speech which sounded rather revolutionary. He said we have entirely too many laws. Still, this was not so bad. The National Association of Manufacturers says the same thing—employers fall foul of some law every time they want to do anything.

But more recently, as congressman, the Pennsylvania made a more startling speech.

He complained of the American government's increasing tendency toward centralization. He declared it unconstitutional—even compared the constitution with the Parthenon—

"beautiful still in its ruins." He went so far as to broadcast a warning that America may break up into several countries unless states' rights are better respected.

How about that?—from a Pennsylvania Republican congressman.

Verse was to come.

When the still-pending tariff bill came up in the house of representatives recently, Beck denounced it on account of its "flexible" clause—a provision giving broader powers to the president to change import taxes in emergencies.

The president has no business meddling with taxes, he said—it's unconstitutional.

It was too Jeffersonian a speech for a lot of so-called Democrats.

In conclusion, Beck voted against the tariff bill in toto—the sacred G. O. P. tariff bill—which a few progressive also voted against, to be sure, but a bill by which regular republicans would have dared to vote against, lest Joe spite him.

Now it's whispered that Vare, broken in health, intends to give up his long senate fight soon, and that he aims to have Beck appointed to succeed him.

Miracles are not impossible, if that can happen.

It will be still more of a miracle if Beck can win the election which

must shortly follow his appointment. He's smarter than chain lightning, but a haughty man—no politician would guess him a good campaigner.

Sharon Man Is

Gets Patent On Bundling Machine; Greenville Man Also Inventor

(Special To The News)

WASHINGTON, D. C., July 5.—Charles T. Schwab of Sharon has been granted the patent rights on a novel bundling machine, the United States patent office announces.

Schwab filed application for the rights on his invention November 30, 1927 and was awarded the rights July 2 of the present year.

The official gazette of the patent office gives the following brief technical description of the bundling machine.

1. A device of the character described comprising a frame, horizontal guide rods for feeding means, held in said frame, means moving on said guide rods for carrying a coil to be bound and the bound coil after binding, means for feeding material into the coil, means for sharing and bundling the wire about the coil, means for twisting the ends of the wire bent about the coil, and means for controlling the cycle of operations.

The patent office also announced that William Greenville Horsch of Coropolis has been granted the rights on a method of recovering zinc from materials containing the metal, and that William B. Peirce of the same city has been awarded the patent rights on a novel piece of metal-working machinery.

TALLAHASSEE, Fla., July 5.—A man, although lodged in a county jail of Florida, recently appealed to Attorney General Davis to protect him from the molestations of his wife.

The attorney general passed the request to the county in which the man was incarcerated with the following opinion:

"There is no law which gives a man's wife the right to molest him while he is enjoying himself in peace in the county jail."

Very Severe Itching Pimples Three Years. Cuticura Healed.

"I was troubled with pimples for three years. They were small, hard and red and broke out back of my ears, on my neck, and around the hair line on my face. The itching was very severe, and when I scratched the pimples, they became inflamed. They caused much disfigurement, and resulted in loss of sleep.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I noticed an improvement after using it so purchased more and in about eight weeks I was completely healed." (Signed) Mrs. Ralph Kent, Lionville, Pa., July 21, 1928.

Pittsburgh Schools Will Ban Homework

Shorten School Day To Give Pupils Longer Play Hours

PITTSBURGH, July 5.—Homework, the bugaboo of school children, is about to be dispensed within this city, under plans adopted by the Pittsburgh board of education.

The solution found by the educators was simplicity itself. They will cut forty minutes a day from regular class hours, to give the students time to do "home work" during regular hours.

According to the psychology of the school board members, the idea is that the students will work harder during the time they are in classes. This because those who have low grades will be required to spend the deleted half hour in special classes.

Teachers and parents here have bombarded the board with requests for shortening of school hours. Immature minds and bodies, they argued, are not strong enough to stand the pressure of learning for a full school day. In the afternoon the children are so tired they can't think of anything except play.

So the obliging board, this fall, will provide the extra play time, with expectancy it will be used for doing homework.

Potato Growers Plan Campaign

KEARNEY, Nebraska, July 5.—To overcome the prejudice of women who wish to retain "that school girl silhouette" against the potato as a food, will be the object of a national advertising campaign, according to the Agricultural Council of the Central Western Shippers' Advisory board in session here recently.

The suggestion was prompted by the fact that the potato is lagging behind other food products in spite of the increase in population. According to Hume B. Tabb, executive secretary of the National Potato Institute, this slump in potato consumption was partially due to the desire of women to possess a slender figure.

Over 41,000 Graduated From State High Schools

HARRISBURG, July 5.—According to reports received by the department of public instruction, approximately 41,000 pupils were graduated from Pennsylvania public high schools during the commencement season which just closed. This includes approximately 5,000 pupils who were graduated at the mid-term commencement in February, 1920. Department officials pointed out that the number of students who remain in school to graduate is increasing each year.

Approximately one-half of the group graduating will enter colleges and universities, teacher training institutions, schools for nurses and commercial training schools. The remaining group will enter store and office work, agriculture, homemaking, factory work, trades and other employment.

The number of pupils seeking admission to higher institutions is rapidly increasing. The college education, before entrance into business or home life, is demanded by increasing thousands of boys and girls each year. But to the large number of students demanding entrance to colleges and universities, the entrance requirements to these institutions are becoming more and more difficult each year. Colleges and universities are attempting to select their students in such a way as to avoid the difficulties which arise when pupils poorly prepared to do college work are admitted to the freshman year. Personal qualities, as well as academic achievement, are important in predicting the probable success of a student in college, department officials said.

High school officials are cooperating with college admission officers in securing and transmitting to the college a full record containing the

pupil's marks, activities and characteristics. This aids the college in making a more careful selection of students.

Singing Prisoner Shields Comrades

(International News Service) RICHMOND, Ind., July 5.—If a prisoner paddles around noisily in the jail bath and bursts forth into bathroom harmony, exuberant spirits are not always the sole cause, Sheriff Henry Long, of Wayne county, has learned.

For while Robert Williams, negro, 17 years old, was bathing noisily, the disturbance was shielding the sounds of rasping saws being used effectively by four prisoners in the local jail, the sheriff discovered in preventing a jail break.

In an alleged confession, the four prisoners said that Mrs. Lee Voyle, wife of a former prisoner, had smuggled the saws into the prison in baked bread.

Makes Inspection Of Rural Schools

MISSIONARY TO SPEAK AT ENON

HARRISBURG, July 5.—Announcement was made today by the section of school inspection, State Health Department, that the annual check-up of the rural schools is now being made. The program involves a survey of more than 250 districts in the various counties of the state during the present vacation period, which is being directed by John C. Zeigler.

This work will be followed up by

recommending to boards of education, pending improvements in conditions found not to be complying with the laws so far as sanitation, sanitation and general hygiene principles are concerned.

Mrs. Wendell Duff, former resident here and now a missionary in India, is speaking Sunday evening at eight o'clock in the Enon Presbyterian church.

Golf Feature Is Scheduled At Club Sunday Afternoon

Eminent Golfers Will Stage Four-some, Providing Weather Permits

ELLWOOD CITY, July 5.—One of the most interesting golf features at the local Country Club has been arranged for Sunday afternoon if the weather permits.

The event planned is a match with three nationally known golfers, Archie Loeffler, golf pro at the Willow Springs Country Club in San Antonio, Texas; Larry Nabholz, pro at the Colonial Country Club at Houston, Texas; and Fred Barton, pro at the Stanton Heights club in Pittsburgh. Fred Loeffler, pro at the local club and a brother of Archie will complete the foursome. The match will begin at 2 o'clock.

Loeffler and Nabholz stopped here enroute to Texas, having qualified the national open tournament at the Wing Foot Club in Mammoth, N. Y. Barton also qualified in the tournament.

The blue-eyed brunette presents one of the most fascinating studies in color harmony, says Lucien Lelong. In make-up, as in clothes, she must be careful to preserve the harmony of blue tones to accord with her eyes, and the harmony of flesh or ochre tints to harmonize with her skin.

Will March In Body To The United Presbyterian Church Sunday Night

ELLWOOD CITY, July 5.—The annual church service of the Orange lodges will be held Sunday evening in the United Presbyterian church. The sermon will be given by the Rev. A. M. Stevenson, pastor of the First Presbyterian church.

All members both of the mens lodge and the ladies lodges will meet in the hall of the Protestant boys L. O. L. No. 126 in the First National Bank building at 7:15 p. m. The line of march to the church will be escorted by the Black Knights in full uniform, followed by the ladies and Orangemen with the members of the Sphinx lodge in the rear. The lady members are requested to wear white. The Sphinx will wear their regalia.

Visitors from Butler, New Castle, and Beaver Valley are expected. This church service is an annual feature of the lodges and is held each year on the Sunday nearest July 12.

New energy for work in this Wake-up Food

POST TOASTIES

START your breakfast with a heaping bowl of golden crisp Post Toasties in milk with fruit—and you've made a grand start on the day. Energy is what people need in the morning. Here in Post Toasties, the Wake-up Food, is the kind of energy that gets to work for you quickly. It's called the Wake-up Food just for that reason! And it's so good for boys and girls and grown folks because it is so easy to digest. They all just naturally take to that wholesome, delicious corn flavor.

Tumble the crisp flakes right out of the package into the bowl—they're easy to serve. Don't forget—there's just one way to get the Wake-up Food. Ask your grocer for Post Toasties—in the red and yellow wax-wrapped package.

Ezekile---The Exile Prophet Of Hope

"Brass Tacks" On The Sunday School Lesson

The Golden Text

"AS I LIVE, SAITH THE LORD JEHOVAH, I HAVE NO PLEASURE IN THE DEATH OF THE WICKED; BUT THAT THE WICKED TURN FROM HIS WAY AND LIVE." Ezekiel 33:11

By DR. ALVIN E. BELL

Inasmuch as our lessons for three Sundays are planned to cover the prophecy of Ezekiel, it may be well for this first week to get a "bird's eye view" of the entire book. Accordingly, permission is granted to use the following which is quoted from the author's book "The Gist of the Bible Book by Book," copyrighted by A. B. Bell, Toledo, Ohio.

"As Isaiah is the statesman prophet of faith and Jeremiah the martyr prophet of love, Ezekiel is the exile prophet of hope."

The scene of his entire ministry was in the Babylonian empire, where he was carried with the second group of captives, 11 years before the destruction of Jerusalem.

The first 24 chapters of Ezekiel recount his call and prophecies during these 11 years, in which he sought in vain by his numerous parables and impersonations to convince his fellow-exiles of the coming destruction of Jerusalem, and the righteousness of God's judgment in destroying it.

The pagantry of his miniature siege of Jerusalem represented in the tale bearing the picture of the doomed city; the shaving of the prophet's hair and beard and the burning and cutting and casting to the winds of three parts of his hair, symbolizing the fate of the inhabitants of the city; the prophet's enactment of the part of the feeling exile escaping from the hole in the wall with his few personal effects; and his bereavement at the sudden death of his wife, at which he was commanded not to mourn, are but a few of the incidents of the prophet's ministry which make this book one of the richest in imagery in the divine library.

Everywhere, as he pronounces the doom and destruction of Jerusalem and pictures the horror of it all, the prophet vindicates the justice of God in the punishment of the people for their gross sins of idolatry and impurity, and repeatedly affirms the purpose of God, that by punishment the suffering people may learn to know him and come to repent and be saved. For no pleasure occurs more often in the book than the words "And ye shall know that I am Jehovah."

But all of this ministry of Ezekiel fell upon deaf ears. The exiles refused to believe that Jerusalem would fall until one of the refugees came with the sad news. "The city is smitten."

In the meantime the prophet pronounced the doom of the seven surrounding nations which had oppressed God's people, repeatedly indicating the purpose of this judgment also in his most familiar phrase, "They shall know that I am Jehovah." (Chapters 25 to 32.)

After the news of the destruction of Jerusalem reached the exiles, Ezekiel's ministry met with a more favorable reception, and from chapter 33 to the end we have his great gospel of hope in which he prophesies the restoration of God's ancient people to all their former glory.

(The International uniform lesson for July 7 is Ezekiel 1:1-3; 2:1-3-27; 8:1-4; 11:22-25; 24:15-24; 33:30-33, the subject being "The Story of Ezekiel" and the Golden Text: Ezekiel 33:11. "As I live, saith the Lord Jehovah, I have no pleasure in the death of the wicked; but that the wicked turn from their way and live.")

Oil City Youths Hold Up Wrong Man

FRANKLIN, Pa., July 5.—Adopting hi-jacking tactics, four Oil City youths held up and attempted to rob Walters Gregg as he turned his car into the Maple street drive in Rocky Grove, early yesterday.

"We've followed you long enough; now hands up," one of the quartet commanded, declaring at the same time he was a prohibition officer. The four searched Gregg's car, then fed a half hour later a posse of state patrolmen and city police rounded up the gang in the business section. They will be arraigned Monday on robbery charges. Officers believe they held up the wrong man in their hi-jacking attempt.

There are two ways to make a child obedient. Make rules that seem fair and reasonable, or beat it savagely when it breaks a rule.

Camp East Brook

East Brook camp has been full of hounds coming in at 9:15, just in time activity this week. The Selota street mission girl have spent a happy week enjoying camp life.

Miss Beal took the girls for a nature hike Tuesday morning. Tuesday evening a masquerade was held. The girls produced many original costumes.

Wednesday evening a hare and hound chase took the girls several miles around the camp, the last wishing to take advantage of these

variances should send their reservations in at once to Camp East Brook, R. D. No. 9.

CROSSING TRACKS

PITTSBURGH, Pa., July 5.—As he crossed the tracks of the Baltimore & Ohio railroad at Hardy dam yesterday, Thomas Martina, 17, of Millcreek street, was struck by a train and fatally injured. He died later in the Pittsburgh hospital of a fractured skull. Martina had been swimming and was crossing the tracks to get some ice cream.

Want Tax Placed On Outside Bakers

Uniontown Councilman Proposes Novel Scheme To Protect Home Industry

UNIONTOWN, Pa., July 5.—Suggestions that all bakery companies outside of Uniontown be taxed \$8 to \$10 a day for the privilege of delivery of their product in Uniontown was made before council by one of its members but so far has received little encouragement. It is claimed that thousands of loaves of bread are sold daily in Uniontown and vicinity by bakery companies not paying taxes in the city. Complaint is made by local bakers and it is hoped to pass such legislation as to bar outside companies.

by shooting herself in the right temple yesterday afternoon while seated in a chair at her home, 328 North Craig street, according to a report at the Oakland police station. Her mother, Mrs. Lillian Benson, said the girl had been ill for the past year.

It was suggested by one councilman that the Uniontown bakers then might be barred from the surrounding towns and cities in the county and this would work a hardship. The matter was tabled.

Performance . . . that you will find only in the higher-price cars

You'll be attracted first to one of these Flying Clouds because of their simple, straightforward thrust of line—their obvious well-bred distinction. But it is only when you get behind the wheel that you will understand why Reo has built such a pre-eminent reputation in the motor world.

For here, under your hand, is a versatility of performance, a mechanical dependability, that you will find only in the finest cars made; a car that will give you four, six, and even more, years of outstanding service. And, after all, what are you buying, when you buy a car? *Now you can have a Reo Flying Cloud at a lower price than ever before.*

Illustrated is the 5-Passenger sport sedan model of Reo Flying Cloud the Master.

Reo Flying Clouds are priced at the factory as follows:

Representative Fort Dodge Title "Hoover's Mouthpiece"

By WILLIAM S. NEAL,
International News Service Staff
Correspondent

WASHINGTON, July 5.—Tongues of official Washington are wagging over the "oddest politician in congress"—Rep. Franklin F. Fort (R) of New Jersey.

Few while politicians usually delight in being called "the President's spokesman," Rep. Fort is trying his best to avoid just such a title.

As a result, he has kept in the background in many important legislative fights in the house in the special session although doing plenty of hard work on the legislation.

President's Friend.

An intimate friend of the president, a constant adviser of Mr. Hoover, election for nearly ten years and secretary of the Republican National committee Rep. Fort might well capitalize these assets in seeking legislative power.

Whenever he speaks the rest of congress picks up its ears and listens to "the president's voice." So Rep. Fort has come to the point where he usually prefaces his remarks by saying that they are his own and not the president's.

Many expect Rep. Fort to enter the cabinet as a result of his valiant work for Mr. Hoover and his extensive experience in banking and insurance in Newark N. J. It is reliably reported that he eliminated himself before the campaign ended.

Since Republican National Chairman Work resigned he has been suggested for the post but has turned a deaf ear. He says he wants to remain in congress.

Rep. Fort offers three explanations to his friends for his unusual efforts.

to avoid the appearance of Mr. Hoover's mouthpiece.

First of all, he says he isn't and doesn't want to appear in a false light. Secondly, he doesn't want to embarrass the president. Thirdly, he wants to stand on his own feet in congress rather than bask in the sunlight of the White House.

Although he represents an industrial and financial center Rep. Fort has worked intensively for farm relief for four years as a member of the committee on agriculture. He fought the equalization fee idea, but favored the gigantic co-operative marketing plan adopted by the Hoover administration.

Hard Worker.

During the special session fight he did most of the work behind closed doors however to avoid appearing as the President's messenger in the farm relief fight.

When the tariff fight was on he developed some new ideas concerning the flexible tariff. He told President Hoover that he was going to make a speech—and refused to tell the president what he would say. He was forced to begin the speech by declaring that he was presenting his own views.

There are reports that Rep. Fort may yet enter the cabinet or take some other high government post. He seems determined whatever happens that he is not going to let people say that he is a "personal appointment" of the president—meaning one appointed because of friendship and not because of ability.

PRINCETON

Mr. and Mrs. McKinley Shaffer and Miss Rosabelle Shaffer entertained Tuesday evening at a miscellaneous shower, for Mr. and Mrs. Paul Shaffer, a recent bride and groom. The evening was delightfully spent with games, music and social chat. The

Regular Weekly Services At
Temple Israel This
Evening

What is the predominant need of the world today? What makes for continuous progress and an improved humanity? What attitude, natural as it seems, is most apt to retard the growth of the human soul?—These questions will be discussed by Rabbi Menkes at the regular Friday evening services at Temple Israel tonight at 8 p. m.

After the services there will be a social hour, at which Mr. and Mrs. Louis Kohn will act as hosts in honor of the approaching Bar Mitzvah of their son, Arthur.

Saturday morning services at 10:30. With these services Rabbi Menkes will close his activities for the summer to be resumed again in September.

MT. HERMON

There will be Sunday school at Hermon next Sunday morning at 10:30. Preaching services in the evening at eight o'clock. Rev. Gregory, pastor.

Mr. and Mrs. William Gardner and family of Plaingrove were the guests of Mr. and Mrs. Lloyd Kildoo recently.

Mr. and Mrs. Ben Magee and son George, of East Brook; Mr. and Mrs. E. S. Harrison and family of New Castle, visited at the home of I. S. Stevenson Sunday.

Mr. and Mrs. Robert Stoner of Youngstown are visiting Mr. and Mrs. O. H. Boak.

J. F. Boak and J. E. Boak were in Pittsburgh Tuesday.

Mrs. Martha Sankey and daughter of West Sunbury were the guests of Mrs. Ara McConnell Sunday.

Mrs. Martha Magee is spending a few days with friends in Butler.

Mr. and Mrs. Everett Boak re-

turned home Wednesday evening from a motor trip to Washington, D. C.

Ashley and Floyd Stevenson visited John Elder of Harlanburg Tuesday.

The W. C. T. U. will meet at the home of Mrs. Paul Blair next Thursday afternoon, July 11th.

Mrs. Bessie Dean was hostess to the missionary society Tuesday. Quilting and making quilts was the work of the day. A fine dinner was served at noon by the hostess, assisted by Wilberta Boak and Thelma Dean. The devotionals were in charge of Mrs. Florence Stevenson. Those present were Mrs. Bertha McCracken, Mrs. Venetta Kildoo, Mrs. Viola Boak, Mrs. Jane Perschke, Mrs. Nan White, Mrs. Mary Young, Mrs. Tillie Boak.

SUICIDE HALTED

BY LOSS OF SHOE

(International News Service.)

EVANSVILLE, Ind., July 5. The female vanity of Dorothy Miller, of Evansville probably saved her from suicide by drowning in the Ohio river near here. As she prepared to throw herself into the water, a shoe came off. The pause she made to adjust it was just delay enough for James

Chenault to gain her side and persuade her to remain in this world.

Spain Planning Exposition For World Fishing

Will Make Spanish Exposition International In Aspect

SPANISH METHODS ARE STILL ARCHAIC

(International News Service)
VIGO, Spain, July 5.—A movement has been set on foot in this city to organize an international exposition of the fishing industry. The idea of a fishing exposition dates a good many years back, but only now, stimulated no doubt by the international expositions being held in Seattle and Barcelona, it has been decided to make this exposition international, rather than limit to Spanish fisheries, as had been originally planned.

The fishing industry is of prime importance in Galicia, reaching out as it does, both north and west into the Atlantic Ocean. And Vigo is one of the principal centers of this industry in Galicia, consequently an admirable location for an exposition of this character. Besides, Spain has enormous stretches of coast on all sides, washed by both the Atlantic and the Mediterranean, making fisheries one of the chief industries of the nation.

Archaic Methods
In spite of its great importance, fishing is still carried on in Spain, for the most part, by the crudest, most archaic methods. People are coming more and more to realize the efficiency and output of the industry. It is believed that the international exposition will prove a great stimulus to the modernization of their fisheries. They realize that they can learn a great deal about up-to-date methods of fishing from abroad.

And it would not be at all surprising if other more industrialized nations learned something useful from the Spanish fishing industry. One thing that greatly amazes tourists when they visit Madrid or Toledo, situated in the very center of the country, farthest removed from any coast, is the fact that no meal is complete without a plate of fish.

Surprises Newcomers
What surprises so many newcomers, the fish in Madrid and other cities of central Spain is extremely fresh and palatable.

An hour at a Madrid cafe is not complete without a mug or two of beer and a dish of one of the astonishing sea-foods one finds in Spain: a bunch of "percebes" (goose-barnacles, or freshly-battered eels stewed in well-garlicked olive oil, or the commoner sea foods such as clams, oysters, crayfish or squids (small devil fish) "cooked in their own ink," as the Spaniards say.

PROBABLY A MAGICIAN
A commuter rushed into a grocery store and exclaimed: "Quick! Give me a bag of flour, a half dozen eggs, a pound of butter and a bottle of milk. I want to make a train."

by JOSEPH VAN RAALTE

NEW YORK, July 5—Pauline Garon is a charming screen actress and the very talented ex-wife of Lowell Sherman, nobiest movie rounder of them all.

Besides being charming, talented and all that sort of thing, Pauline is young, and naturally her memory doesn't run back more than one or two inches into the dim and distant past.

Last week she telephoned to a prominent diary requesting them to send around 20 quarts of milk to her chateau.

"It must be Grade A milk, you understand," purred Pauline, "because I desire it for bathing purposes."

The dairy phoned the story into a newspaper office where an ancient re-write man, on the other end of the wire, uttered some sharp-powered words that cut the sea of sound in a most unpleasant way.

Nay, nay, Pauline. Milk bottles were of the vintage of the 90's—decisively termed the Gay Nineties by the Melancholy Moderns of the Dry

RELIEF FROM CURSE
OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 24c today. Go to the nearest Rexall Drug Store, Paisley's Pharmacy, Washington St. and Croton Avenue.

Margery Sellig, daughter of Al. Sellig, Tiffany-Stahl advertising head, was married to Jules Henry Fields, former U. of P. football star.

In the course of the marriage feast Papa Sellig was handed the following message:

"Please send me a picture of the 'Bomb Baby' now grown to ladyhood."

The note was signed "Jack Rainey, City Editor of the New York Evening World."

Twenty-five years ago Al. Sellig and Jack Rainey were young reporters on the Evening World. Their desks were side by side.

One day there was a Black Hand bomb exploded in Harlem and Charley Chaplin, city editor (now serving a life sentence in Sing Sing for the murder of his wife) assigned Rainey to cover the story, which turned out to be a dud.

As Rainey was about to start back for the office a policeman told him that immediately following the explosion in the basement of the house a baby had been born on one of the upper floors. We went to the apartment and found it was the home of Al.

Legion Will Name State Delegates
Important Meeting Will Be Held
By Perry S. Gaston Post
This Evening

Members of the Perry S. Gaston Post, No. 243, American Legion, will meet this evening at the state capital building at 7:30 p. m. for the purpose of electing delegates to the state convention. The convention will be held at the state capital building on August 1 and will be one of the greatest events ever held in the state capital.

Reports will also be received from the annual and Boy Scout committees, in addition to other important business.

Post Commander Ivan V. Davis desires a full attendance of all members of the post.

Boy Scout News

NEW WILMINGTON.—The New Wilmington Boy Scout troop No. 1 held their regular weekly meeting on Tuesday evening July 2 at 7:30. The meetings are being held out doors and on the new scout camp located near South Market street. The camp is equipped with various camp equipment, some of which has been made by the scouts of the troop.

Scoutmaster Jack Hulse was in charge of the meeting. All scouts were expected to meet at the new headquarters Thursday morning July 4.

On June 25 Scouts Roland Robinson and Horley Thompson passed knife and hatchet and the former passed recent class test of compass and orientation. Frank McClure, Jr., passed compass.

The camping period has been changed to August 5 due to the Chattanooga and conference coming to New Wilmington during the month of July.

After the business meeting various tests were passed and games were played. The next meeting will be held at the new scout headquarters on Tuesday evening July 9 at which time all scouts are requested to be present.

Merle Thomas Rogers, Jr.

CAMPERS NOTICE.
The first two weeks camping period ends with breakfast on Saturday morning July 6. All campers and the camp staff will spend the week end at their homes. Boys who are returned on Monday for the second period will leave their luggage and bedding at the camp. Indications are that the camp will be filled to capacity for the coming two weeks.

The Story Of The World War
52 Dardanelles

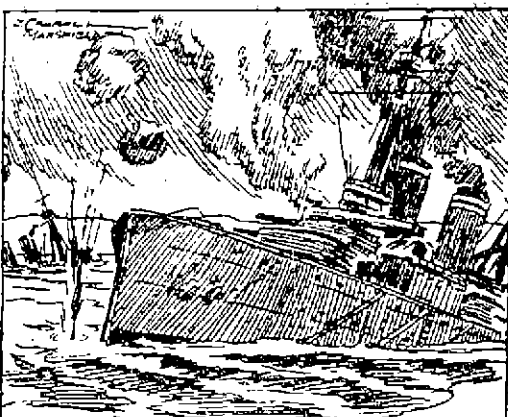

WHILE THE DEADLOCK OF TRENCH FIGHTING CONTINUED ON THE WESTERN FRONT, THE ALLIES EARLY IN 1915 PLANNED TO BREAK THROUGH THE DARDANELLES, SEIZE CONSTANTINOPLE AND SECURE A LINE OF COMMUNICATION BY SEA WITH RUSSIA.

A FLEET OF BRITISH AND FRENCH WARSHIPS SAILED FOR THE AEGEAN SEA AND ON FEBRUARY 19, 1915, BEGAN BOMBARDING THE TURKISH FORTS AT THE MOUTH OF THE DARDANELLES. THE FIRE OF THE BATTLESHIPS SOON DESTROYED OR SILENCED THE SHORE BATTERIES.

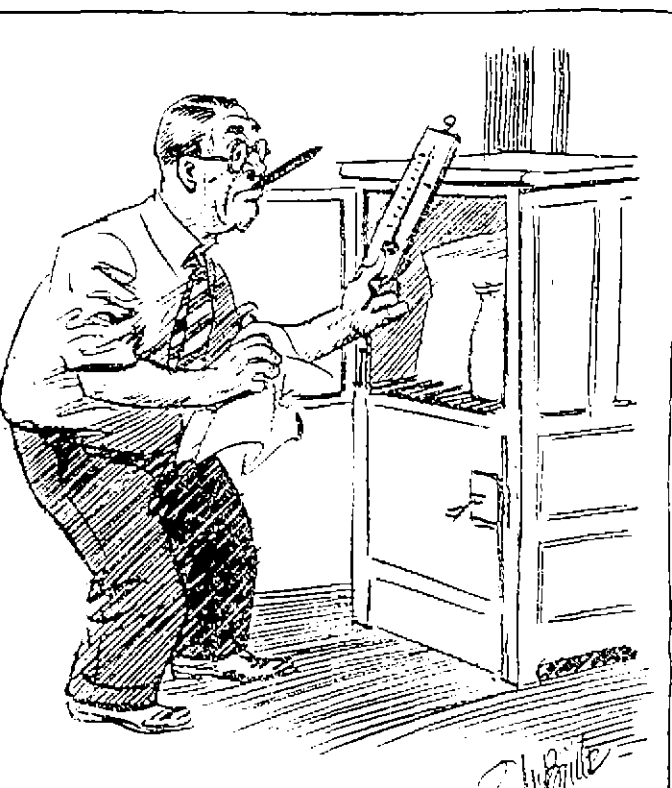

BUT A SECOND LINE OF FORTS WITHSTOOD THE SHELLING, AND FOR DAYS A GRIM DUEL WENT ON BETWEEN THE SHIPS AND THE SHORE. FIELDS OF MINES MADE THE ADVANCE OF THE FLEET INTO THE NARROW STRAIT EXTREMELY HAZARDOUS. HOSTILE SUBMARINES CONSTANTLY MENACED THE FLEET.

THE GREAT NAVAL ATTACK ENDED IN A DISASTROUS REPULSE ON MARCH 18, 1915, WHEN THE BRITISH BATTLESHIPS "IRRESISTIBLE" AND "OCEAN" AND THE FRENCH BATTLESHIP "BOUVET" WERE SENT TO THE BOTTOM BY THE TURKS.

Ruth Hopes To Break Record For Home Runs

Babe Ruth Thinks That He Will Break Record For Home Run Hitting

PACEMAKERS ARE GIVING OPPOSITION

By DAVIS J. WALSH
Sports Editor International News Service
NEW YORK, July 5.—Mr. Babe Ruth, whose recent pain in the

paunch was felt all the way out in Council Bluffs, desires to announce today that, what with his heart patterning and pattering, whatever that is, he greatly fears that he will be unable to better the record this year by more than two or three home runs. This isn't precisely what he said, of course. Mr. Ruth seems a modest fellow and a great comfort to his maiden aunt. What he did infer was that he intended to lead the field home, irrespective of the apprentice allowance to which his illness had staked it, and that if this took more than 60 home runs, he was very intimately acquainted with the man who would take them.

Incidentally, the gentleman's story sounds all right to me. He may not ring the bell with as many as 60, what with time out for repairs, but if he keeps going at current production he will be so close they'll have to time the difference with a stop watch. His seven home runs in 16 games since his return is an average that will bring him down to the wire with more than 55 for the season. His total this morning is 17, as against 24 for Ott, 21 for Gehrig, 19 each for Klein Hefey and Wilson and 18 for Summons.

Lots of Pacemakers
"The way I see it is this," said he. "I had my greatest year in 1927? Why? Because I had a pacemaker in Lou Gehrig. This year I have five or six pacemakers and this ought to get me somewhere. Of course, somebody might pace me all the way in and then I'd be licked. But that's a chance we all have to take and I'm willing to take it. I never believed in myself as much as I do right now. I'm hitting them and I'm feeling great; never felt as good in my life as I have

the last couple of weeks. It must have done me good to be sick. Naturally, I feel confident, after being out 18 days and losing as little ground as I did."

The boy friend, as a matter of fact, was understanding the matter. He lost plenty of ground while he was out. He got much of it back after his return. He had 10 home runs when he reappeared in the box scores on June 19, whereas Gehrig, Klein and Hefey had 18 each, Ott had 17 and Summons and Wilson 14 each. Today the totals show Ruth with an advance of seven, whereas Ott and Wilson were the only rival hitters who made a play for holding this pace. The former got seven and the latter five during the same period. Looking back over the situation, it seems just too bad that George hasn't got his health.

Shaw Wins Race At Bridgeville

Wilbur Shaw, Indianapolis Racer, Captures 100-Mile Speed Race At Bridgeville

(International News Service)
PITTSBURGH, July 5.—The half-mile board track speed crown of the nation today rested with Wilbur Shaw, of Indianapolis, whose Tiny Miller Special hurled through 100 miles at an average of 67.14 miles an hour, in the all-champion drivers automobile race at Bridgeville near here yesterday.

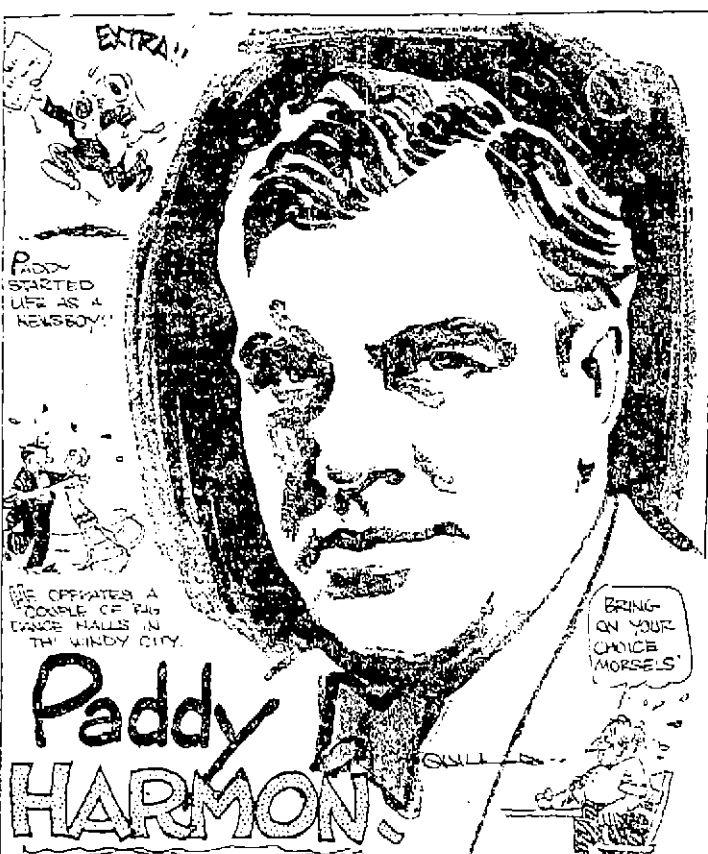

Shorty Canton, of Detroit, miraculously avoiding a crash in the latter part of the race, was second to the Indianapolis speed demon, only a fraction of a lap behind. He drove a Miller Special.

Deacon Litz, of DuBois, driving a Miller Special, was third closely behind Canton, and Chester Gardner of Philadelphia, showed his Boyle Valve Special through to fourth place.

Cliff Bergere, one of the ten starters, was taken seriously ill after doing 147 laps, and retired. Jimmy Gleason, Philadelphia, was forced out with his Miller on the fourth lap, by engine trouble. Russell Snowberger, in a White Special, quit with engine trouble after 59 laps.

Fred Winnall, in a Duesenberg, landed fifth. Lou Moore, California, placed eighth with his Miller.

Chicago's Master Of Sports

WITH THE CHICAGO STADIUM COMPLETED, HARMON, THE FELLOW WHO PUT OVER SIX-DAY BIKE RACES, SEEMS TO HAVE A STRANGE HOLD ON ALL BIG INDOOR SPORTING EVENTS TO BE STAGED IN ILLINOIS DURING 1929.

By QUIN HALL
What Tex Rickard was to New York, he does more hand shaking than President Hoover and he can't allot certain days to do it. If he can hold up under the strain, he'll be more prominent this fall than he was last spring and even last spring he wasn't a guy to be laughed at. You've just got to like this fellow with the big speaker shining on his finger.

Paddy started out as a newsboy and made good selling papers before Chicago had gang wars. Now the racket is easier. He branched out into six-day bike races and popularized 'em. He started a dance hall and "took Chicago's dancing daughters out of the cabarets," as one Chicagoan expresses it. Now he has two dancing palaces and dabbles a little in other side lines.

Right now Harmon is all aglow over the Chicago stadium. Next winter he hopes to have the Chicago Black Hawks playing their Chicago games in his new sport palace. And fights? There'll be plenty of ritz clashes staged in the Windy City next fall and winter.

"We have the site," is the way Harmon puts it. "It's easy to talk about building a stadium but it is another matter to build one. This one is finished. And we're going to have plenty of attractions to keep it open all the time."

Yes, it would seem that Dempsey is in another tough promotion spot—trying to buck Paddy Harmon and that Chi stadium.

Rough Treatment Accorded Hurlers

Pitchers In Both American And National Leagues Suffer Hardships Thursday

By HENRY McLEMORE
International News Service Staff Correspondent
NEW YORK, N. Y., July 5.—After no end of mental juggling the committee named to select the one big parade of Independence Day has announced that the flowers and liniment be awarded the pitchers of both major leagues.

It seems a wise selection, for these hardy souls—some sixty-four of them—marched back and forth all afternoon to the sour music of 371 hits, including twenty-two homers, rattling off enemy bats.

This making a neat average of twenty-four and a fraction hits in each of the sixteen games played, it can readily be seen that the boys suffered as they marched.

Pitches Take Lead
What was the result of all this lambasting? Just one thing—Pittsburgh eased by Chicago to take a scant half game hold on National League leadership. The Bucs convincingly trounced the Cards twice in order to make their jump. Chicago dropped the opening tilt with Cincinnati but took the night cap. Hack Wilson started a near riot in the second game when he ran from first base and took a few healthy swings at Pitcher Ray Kolp. Both were removed from the field.

The Giants consistent to a fault, split with Boston. Spohrer, a former McGraw boy who didn't make so much good in the city, beat his former friends in the first tilt when he singled to drive across two runs. In the second affair Larry Barton had the Braves completely subdued, shut-out them out. Alslott gained a peg on his home run rivals when he slapped his twenty-fourth of the year.

The American race remained at a standstill. Philadelphia taking two from Boston while New York and St. Louis did the same with Washington and Detroit serving as the victims.

Brands Thieves World's Meanest

(International News Service)
WILKES-BARRE, Pa., July 5.—"The world's meanest thieves." Thus the appellation branded on two Durycia youths, Benny Simansky and Frank Giodza, who pleaded guilty before Judge B. E. Jones to robbing William Hise, blind proprietor of a small store at Exeter.

The boys not only took cigars and cigarettes valued at \$60, but also admitted pilfering the medicine used by Hise in treating his affliction.

Although their parents promised restitution, Judge Jones exonerated the youths with jail sentence and remanded them to jail for later sentencing.

The CORRECT OIL for your car... and for today's faster driving speeds

THE speed at which you operate your car has a very direct bearing on oil consumption—and consequently on the grade of oil you should use.

More than ever do you require an oil that combines high viscosity with low volatility... an oil that will neither thin down nor evaporate appreciably at high speeds.

Used in the correct grade, ATLANTIC Paraffine Base MOTOR OIL is the most amazingly slow-consuming oil your motor has ever known. Slow consumption means longer efficiency—and, of course, less oil to buy.

Consider these things when choosing a motor oil—especially in the light of *who* makes it. Experience is the most important ingredient in it. The Atlantic Refining Company puts sixty years of experience into ATLANTIC Paraffine Base MOTOR OIL.

College Athletes Shatter Records In Denver Meet

Eddie Tolan, Michigan Negro Sprinter, Tops Field In National A. A. U. Meet

(International News Service)
DENVER, Colo., July 5.—Eddie Tolan, little bespectacled negro from the University of Michigan, today was the new national A. A. U. senior 100-year champion by virtue of his triumph over a brilliant field of sprinters in the A. A. U. championships.

Bucking a stiff wind, Tolan raced the century in ten seconds, defeating Claude Bracey of Rice Institute and Russell Sweet, Pacific Coast champion, by a matter of several inches. A few minutes later Tolan returned to win the 220-yard dash in 21.9 seconds.

Four A. A. U. records toppled in other events. R. F. Bowen of Pittsburgh University cut two-tenths of a second from the 440-yard mark, doing the distance in 48.8. E. W. Stevenson, New York Athletic club, held the previous record. Eric Krenz, Olympic club, shattered the discus throw with 157 feet 2 inches.

Fred Sturdy of Yale set a new pole vault record of 13 feet 9 1/4 inches. Jess Montenson, Los Angeles A. C., hurled the javelin 204 feet 9 inches for a new record. The Olympic club, with 44, led in team points scored. Los Angeles A. C. was second with 39; Washington University third with 19, and Illinois A. C. fourth with 13.

Danceland Trims Colored Stars

The Danceland team downed the Colored Stars 11 to 9, in a City-County League game, played at the Radnor Field on Wednesday evening. The game was a pitchers battle between Bradley for the Stars and VanEman for the Danceland team. The winners bunched their hits in the first four innings to take the

victory. McKay featured the game with a home run wallop.

Grove City To Play Italians

Grove City Collegians To Oppose Italians At Centennial Field Saturday

Saturday afternoon, at 3:15 o'clock, the Italians of the Lawrence County League will have the Grove City Collegians as their opposition at Centennial Field.

The Collegians will give the Italians a fine game. Ted Bair, Westminster College athlete and a star young pitcher will likely have the mound against the Italians, and if Bair is right, the locals are going to find his curves and speed very baffling. Bair has been twirling fine ball this year in the district, and as a member of the Beaver Falls Student-bulkers at one time, hurled many a

great game. Bair has beaten the Homestead Grays this season.

Carm Sacco the Italians energetic business manager is looking for a banner crowd tomorrow afternoon, in event of good weather.

The Italians have been going hot lately and ran their string of wins to ten or eleven before being halted. The Reider brothers together with Sanky McCullough and Paul Fahney have given the Italians an excellent infield. Just who will draw the knot assignment for the locals Saturday is not known as yet.

Sacco announced today that next Saturday the famous Chicago Ranger Girls baseball team would oppose the Italians in the first game at Centennial Field, and that Wampum would be met in a second game. The fans can rest assured that the Ranger Girls will give the locals plenty in the way of opposition. The Wampum-Italian game will be a league affair.

Which house would you first inspect? The first Ad will get results of course, for News Classified Ads are little plants when it comes to power. But the second house is the one which will be sold first because the owner realized the importance of telling the public what he had to offer. An extra word or two which will cost you only a few cents is often worth many dollars in securing results. Don't leave out important details in your next Ad. It pays to put them in.

Twenty Thousand At Cascade Park

Not One Accident Or Arrest
To Mar Pleasant Day At
Park

Last year's Fourth of July attendance at Cascade Park was shattered yesterday when at least 20,000 thronged the local amusement center and enjoyed the day of independence in various ways.

Hundreds of cars were parked and not one accident or act of disorder occurred, something which brings credit to the manager, Carl Shaner who made arrangements for handling the big throng.

Picnickers started arriving at the park early yesterday morning and during the afternoon and evening every inch of parking space was taken. Cars were also parked on other plots near the park.

Rainbow Terrace was filled with dancers all afternoon and until late last evening. The midway was popular by the thousands and all of the concessionaires enjoyed a "land of fire" business.

The police force at the park, headed by Chief Tom Newell was on the job in all sections but they had nothing to do. In fact not one person with the sign of intoxicants was seen in the park.

The playgrounds for the little children played to a capacity crowd and the Green pool, despite the cool breeze was filled during the afternoon.

Persons who visited the recreation center yesterday were immensely pleased with the hospitality with which the park officials, under Carl Shaner entertained them, something which speaks well for the New Castle institution.

Heavy Storm Does Little Damage Here

Street Commissioner Has No Reports Of Damage To
Streets Or Roads

Although last night's rain was one of the heaviest of the year, it did little damage to local streets. Street Commissioner Harry Moore stated this morning.

Most of the dirt streets have become pretty hard, and the earth has been packed down solidly. As a result, they were not badly washed last evening.

A few limbs were broken from trees by the heavy wind, but little damage resulted locally.

In the rural districts, some of the fields were badly washed and crops destroyed by the force of the wind, but the damage was not serious in most cases.

A total of 2.08 inches of rain fell between midnight and 9 o'clock this morning, the rain being the third heaviest of the year.

Negro Points Gun At Local Officer

Clifton Jackson, negro, was causing considerable disturbance at the place of Nancy Springs, rear of 1131 Moravia street, Thursday in his search for a revolver which he secured there when Officer Thomas was called to the scene.

When the officer appeared Jackson raised the hammer of the gun and pointed it in the direction of the officer, informing him that he was not after him, but he did want to get a man who had insulted him. He advised the officer to keep his distance.

He finally managed to get away, but was arrested later in the evening by Detective John Young and Officer Thompson at his place of work.

He was found on being searched to have disposed of the gun, although this was not known when the officers went to arrest him.

This morning he was taken before Alderman J. Lee Cooper, where he was charged with pointing firearms with intent to commit a crime.

Helen Wills Is Tennis Singles Winner Today

Miss Helen Wills, Defends Singles Title At Wimbledon By Beating Helen Jacobs

By F. A. WRAY

WIMBLEDON, Eng., July 5.—Playing in true championship style, Miss Helen Wills successfully defended her singles title in the Wimbledon championships today by defeating her fellow Californian, Helen Jacobs, 6-1, 6-2, in a stirring match.

Although Miss Jacobs, who made the first all-American final in Wimbledon's history, possibly gave the world's premier woman player a glorious battle, it was all in vain.

"Queen Helen" was unbeatable today. She was superb in every department of the game. She used every stroke in her versatile bag with deadly effectiveness to prevent "Helen" from becoming "Helen" again.

Her service, always powerful, was augmented by a mingled variety of snatching drives, perfectly timed placement shots down the base-line, and an invulnerable backhand.

Miss Jacobs won the first game of the first set on her service. Miss Wills was returning the ball too hard, frequently driving out of bounds.

Miss Wills found her stroke in the second game, winning on service, and then broke through Miss Jacobs' service in the third to win again.

Police Find Big Supply Of Liquor

Fourth Of July Supply Is Found And Confiscated By Authorities

On advice from Officer Campbell, a search warrant was secured Thursday morning and Captain J. Ed Bender, Detective C. G. Logan, Officers Lynch, Campbell and Thompson went and searched the home of Mary Mitchell, 1123 Moravia street.

They found a hand bag belonging to Ray Brown, negro, in which there were eleven quarts of liquor and in the cellar they found 101 bottles of beer. All this was confiscated and Brown and William Gaydon, negroes, were arrested.

Brown was taken before Alderman Walter T. Hamilton this morning where he was charged with violation of the Snyder Act by Chief of Police C. C. Horner.

Gaydon is still being held by the police pending a further investigation. It is probable that a charge of some kind will be made against him.

BIG BEAVER FARMERS ARE MEETING TODAY

Farmers of Big Beaver township are meeting this afternoon at the farm of C. F. Duff for a garden meeting.

J. M. Huffington, State College specialist, is speaking at the meeting, and Miss Janice Wrathall home economics representative here is conducting a cooking demonstration.

Linton will spend \$11,500,000 on new municipal homes for workers.

Diamond Rings Taken From Home

Rings Valued At Several Hundred Dollars Are Missing

Three diamond rings of Mrs. B. M. Campbell, wife of Prothonotary and clerk of Courts Campbell, 115 East Grant street, valued at several hundred dollars, are missing and a search is now under way to determine what has become of them.

As great care was taken of the rings in question, their disappearance is attributed to the work of a sneak thief, who in some manner secured entrance to the home and took the rings while there.

The search is under way and hopes of recovering the rings are held.

WILMINGTON ROAD MAN IS REPORTED MISSING

Mrs. J. H. Conner of the Wilmington road reported to the police Thursday that her husband, an automobile salesman, had been missing since Tuesday afternoon and asked that the police assist in locating him.

MAN HAS POCKET PICKED AT PARK

Joseph Chiff of 1004 Shira street, reported to the police today that about 11 o'clock last night, while at Cascade Park, some person in the throng there, took his pocketbook containing \$42 from his hip pocket, where he kept it.

SOCIETY MATRONS GET SUN TAN

Mrs. Tom S. Hansen, right; left, Kansas City society matrons sunbathing their backs.

Kansas City, Mo., society matrons are using the roofs of skyscrapers to get the fashionable sun tan. They also take off excess adiposity by exercising in the sunshine. Mrs. Tom S. Hansen, right, is wearing the regulation suit which the society matrons have adopted as their official costume for their skyscraper tanning suits.

North Side Store Entered Wednesday

Store of George McIntosh, 406 Garfield avenue, was entered between 8:30 and 11:45 Wednesday night, according to the report made to the police and about a dozen cans of foodstuffs taken. The money and other stuff in the store was not touched. Investigation was made by Officers M. J. Young and Dukes, who found that entrance had been effected by breaking the glass in a rear door sufficient to permit the thief to reach in and unlock the door.

Division Street To Be Repaired

When council convened in the City building today solemnly sanctioned the request of Councilman Reeves to purchase 200 tons of macadam and asphalt which will be used to repair Division street between South Jefferson and South Mill streets. The material will cost about \$850 a ton. The city, Reeves said, is in deplorable condition. The city will have the material shipped here and then do the work.

MAN AND WOMAN ARE BOTH FINED

Robert C. White and Roberta White, colored, were causing considerable disturbance Thursday when arrested by officers Moore and Thomas. When they appeared before the mayor, they were each assessed a fine of \$10 on a charge of disorderly conduct.

PERFECT FOURTH POLICE REPORT

Ban On Use Of Fireworks Is Well Heeded; Few Minor Exceptions

It was a perfect fourth as far as the police were concerned.

There was not an instance in which they were called to investigate disturbances caused by fireworks.

In fact the police state that with one or two minor exceptions called to their attention there were no violations of the city ordinance prohibiting the sale and use of fireworks.

One of the violations reported was Wednesday night on Englewood avenue, where some boys were shooting off carbide candles. They were instructed to quit and did so at once as far as the city limits were concerned.

WILL HAVE HEARING IN MAYOR'S COURT

Mr. and Mrs. Anthony Joseph, 1115 Senate street, were arrested Wednesday night when Lieutenant Hubbs and Officers Moore, Thompson, Thomas and Criswell visited their place and found conditions which they thought merited charges of keeping of a disorderly house and harboring of a disorderly house, respectively. Mr. and Mrs. Josephs per up forfeits of \$25 each for their appearance at a hearing this afternoon before the mayor.
